Plumbing, Heating, Paint, Building Material, Lumber, Mill Work, Roofing and Electrical Goods

SEARS, ROEBUCK and Co., Minneapolis

The World's Largest Store . . . . A National Institution

It's Easy to Order

When in need of anything—look first in our Big Catalog, where, in the comfort of your home, you can do all your shopping the convenient, easy Sears-Roebuck way.

Simply pick out the things you want, write them down on one of our order blanks, as shown on the sample order at the right, and enclose amount of money required. If you haven't one of our order blanks, any plain paper will do. You may use either pen or pencil and write in any language.

Necessary Information on Orders

Be sure to give the correct number as stated in our catalog, quantity desired, name of article and, wherever necessary, **state size and color.**

How to Send Money

The best ways to send money are by postoffice money order, express money order, bank draft or personal check. We do not recommend sending currency remittances, but, if absolutely necessary, be sure to have the letter registered. If you live on a rural route, you can give the carrier your order and money, and he will buy a money order for you.

Telephone or Telegraph Orders

If you are in a special hurry for your order, you may telephone or telegraph it to our Minneapolis Store, and the merchandise will be sent you C.O.D.

Telegraph or Telephone to Special Order Desk.

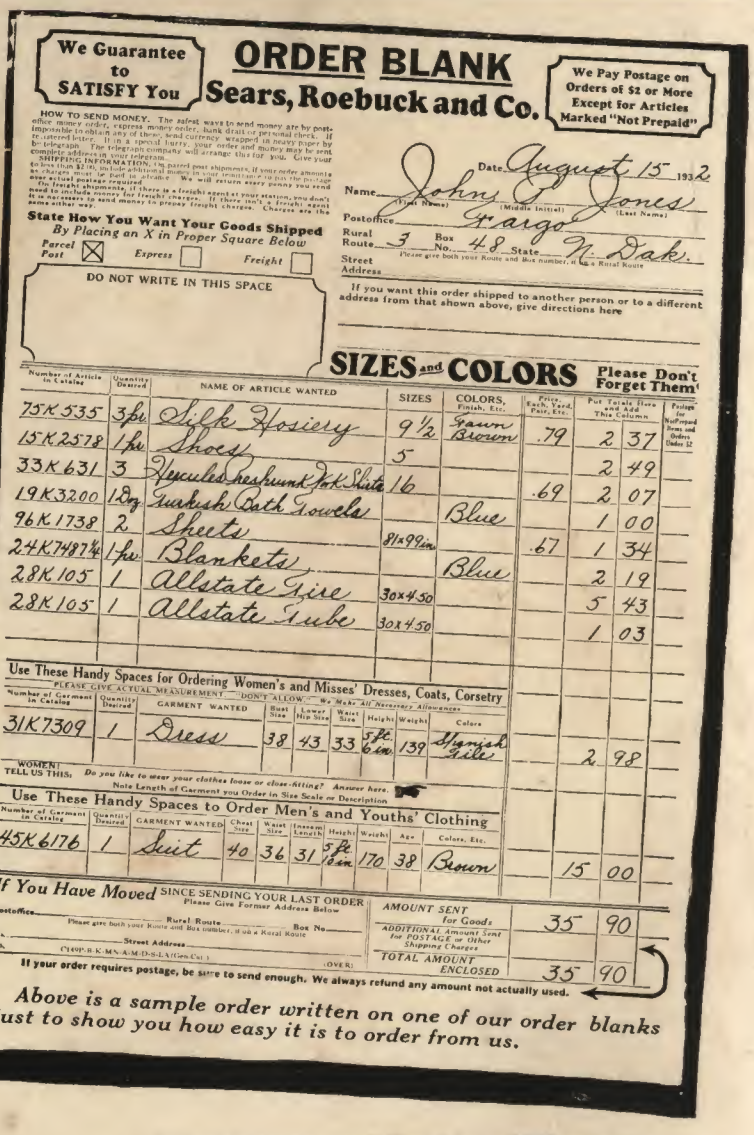
Time Payment Orders

You can buy much of our merchandise on liberal time payments. Terms of payment are fully explained in descriptions of articles offered on time payments or on pages where such merchandise is listed. Read about our Home Furnishings Group Purchase Plan on page 717, and see page 842 for our Home Modernization Group Purchase Plan. If you wish to purchase Farm Equipment on easy terms, see page 919. Please use our Time Payment Order Blank when ordering merchandise sold on time payments. On all merchandise except that which can be bought on easy payments, our terms are cash in full with order.

We Pay the Postage on Orders of $2 or More Except on "Not Prepaid" Items

(See Page 977)

On orders of less than $2.00, or when ordering mailable articles which the catalog states are "Not Prepaid", be sure to include additional money in your remittance to pay the postage, as charges for parcel post shipments must be paid in advance. **We always return every penny you send over actual postage required.**



We Guarantee to SATISFY You

ORDER BLANK
Sears, Roebuck and Co.

We Pay Postage on Orders of $2 or More Except for Articles Marked "Not Prepaid"

HOW TO SEND MONEY. The safest ways to send money are by postoffice money order, express money order, bank draft or personal check. If impossible to obtain any of these, send currency wrapped in heavy paper by registered letter. If in a special hurry, your order and money may be sent by telegraph. The telegraph company will arrange this for you. Give your complete address in your telegram.

SHIPPING INFORMATION. On parcel post shipments, if your order amounts to less than $2.00, include additional money in your remittance to pay the postage as charges must be paid in advance. We will return every penny you send over actual postage required.

On freight shipments, if there is a freight agent at your station, you don't need to include money for freight charges. If there isn't a freight agent it is necessary to send money to prepay freight charges. Charges are the same either way.

If your order requires postage, be sure to send enough. We always refund any amount not actually used.

Above is a sample order written on one of our order blanks just to show you how easy it is to order from us.

Freight and Express Shipments

It is not necessary to include money with your order for freight or express charges if there is an agent at your station, as you can pay him when shipment is received. If there is no agent, send additional money to prepay the freight or express charges. Charges are the same either way. **We do not pay shipping charges on freight or express shipments.** See page 978.

Warehouse and Factory Shipments

We save you money and give you better service on some of our heavier, bulkier articles by shipping them direct from warehouses and factories close to your home. The descriptions give you these various points of shipment, but orders for all merchandise must be sent to our Minneapolis store. We ship promptly from all our factories and warehouses.

If Necessary to Return Goods, We Can Give You Better Service If You Follow These Simple Instructions

Please Give Reason

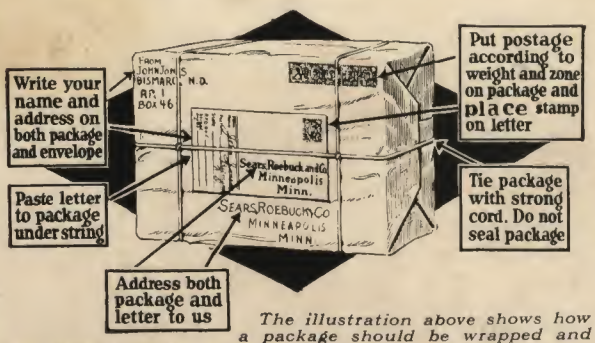
We are always anxious to improve our merchandise and our service. If you ever have occasion to return merchandise, we will appreciate your telling us frankly in just what way it did not please you.

Notice to Customers on Rural Routes

Should you wish to return goods, and you live on a rural route, you are entitled to deduct 2 cents from the postage on each package you mail if you live within the local zone, and 3 cents on all other zones (effective Oct. 1, 1932). It is necessary, however, to write on your package "Mailed on Rural Route" in order to make this saving.

To Send Goods by Parcel Post

Paste an envelope containing your letter and the bills to the outside of the package, and put a stamp on the envelope in addition to the postage on the package. Be sure to address both the package and your letter to us, also show your name and address on them as shown in the illustration. Do not seal the package, but tie it with a strong cord or string. In this way we will receive your letter and package at the same time and can attend to your wishes promptly.



The illustration above shows how a package should be wrapped and addressed when returning goods to us by parcel post.

Do Not Enclose Your Letter INSIDE the Package, as This Is Contrary to Postal Laws.

To Send Goods by Freight or Express

Before returning goods shipped by freight or express, please write us, so we can tell you where we want goods shipped and whether we want the goods shipped by freight or express. See that merchandise is packed securely and addressed to us. Your full name and address should be placed on the inside or outside of the package with the word "FROM" in front of your name. Your agent will give you a receipt and this should be mailed to us at once with your letter explaining your reason for returning the merchandise. If your postoffice is different than the town from which the goods are returned, be sure to tell us.

MILL WORK

ROOFING

ELECTRICAL GOODS

This Special Catalog offers you a wide selection of quality merchandise at prices never before so low. If you find references to pages not in this book, you will understand they refer to pages contained in other catalogs.

It's easy to order. Use our order blank if you have one, or any plain paper. Write in any language. We require payment in full with order, unless otherwise stated. The best ways to send money are in the form of an express money order, postoffice money order, a bank draft, your personal check, or currency in a registered letter. If in a special hurry you may send your order and money by telegraph. The telegraph company will arrange this for you. Be sure to give your complete address in your telegram.

. . . . . When ordering merchandise which is offered on EASY PAYMENT TERMS, be sure to use Time Payment Order Blank enclosed with this catalog.

- **Equipped with "Heatmaster" Balanced Heating Element, guaranteed for 10 years.**
- **Beveled sole plate—gets under buttons, into tucks, ruffles.**
- **Complete with cord, detachable bakelite plug for iron and unbreakable rubber outlet plug.**

To excel one competitor is an honor—but to surpass three well-known, nationally-advertised irons is a **signal triumph,** particularly since all three competitive irons cost much more than our HEATMASTER.

The charts at the left show the temperature recordings of the HEATMASTER and the three competitive irons. Note the even horizontal lines in Chart A (HEATMASTER) indicating constant heat at each stage. Now compare with the irregular heat chart of the competitive iron C. The HEATMASTER, in addition to uniform heat, has **14 to 28% more ironing surface** than its competitors. Try the HEATMASTER for 30 days. If not satisfied, send it back and we will refund everything you have paid. For 110-120-volt alternating current only. **Postpaid.** **$4.95**

20K290—660 watts. Wt., 7 lbs. with cord..... **$4.95**

High Capacity Heatmaster

Saves ⅓ ironing time. Heats faster and maintains heat when ironing damp pieces. Costs no more to operate, due to shorter ironing time. For 110-120 volt alternating current only. Weighs 7 lbs. with cord. **Postpaid.**

20K293—1000 watt..... **$5.45**

KENMORE COMMANDER MODEL REVOLVING BRUSH CLEANER

•BEATING •SWEEPING •SUCTION

Does ANYTHING ANY $75.00 CLEANER CAN DO

Why pay $50 to $75 for a vacuum cleaner when the Kenmore, Commander model, costing only $24.50 will do everything any other cleaner will do? The Kenmore cleaner will pick up as much dirt and do it as quickly and as thoroughly as any cleaner regardless of price. The Kenmore costs so much less than others because (*1*) We don't employ salesmen to go from house to house. This saves you a commission of about $14. (*2*) We have no territorial managers, thus saving another $4.50. (*3*) There are no crew managers or supervisors to run the cost up another $1.50.

That's a $20 Saving Right There

Our manufacturer is one of the oldest and largest manufacturers of electric vacuum cleaners in the world. With such a volume it's only natural we can give the same or better quality for considerably less money.

If you're going to buy a vacuum cleaner, compare carefully and choose wisely. Don't throw money away. Buy the Kenmore—you can buy so many other things with the difference you save.

The Kenmore has a pistol grip handle and handy trigger switch. Complete with 20 feet of rubber covered cord. The Kenmore can't injure your rug because no metal parts come in contact with the rug.

Here's Our Trial Offer

Send only $4.00 now (using Time Payment Order Blank) . . . or send full cash with order. If after 30 days' you are not entirely satisfied, send it back and we will return all you have paid. Try the Kenmore on your own rugs. Convince yourself that you get more dollar value in the Kenmore than in any other cleaner.

For any 110-120 volt current. Easy Payment Terms, $4 down, $4 per month. When ordering on Easy Payments use Time Payment Order Blank in back of catalog.

- Wide bumper band protects furniture.
- Approved by Good Housekeeping. Listed as standard by Underwriters' Laboratories.

Kenmore Junior Suction Type

$8.95 *Post Paid*

Hand Cleaners are More Convenient than Vacuum Cleaner Attachments

The ideal way to clean drapes, furniture upholstery, mattresses, stair carpets, curtains, etc. is with one of these Kenmore Jr. Cleaners. A hand cleaner saves you hours every week and does the work much more quickly and conveniently than attachments. Both cleaners have highly polished cast aluminum nozzles and motor housings. Light in weight.

We guarantee these Kenmore Jrs. to do as much or more and clean as efficiently and quickly as any hand cleaner selling elsewhere up to $15.00.

—Cleans by straight suction principle.
—5¾ in. nozzle with brush to aid in picking up hair, lint, threads, etc.
—Comfortable, convenient handle.
—"One-off" toggle switch on motor housing.
—Complete with about 20 feet of cord.
—Listed as standard by Underwriters' Laboratories and approved by Good Housekeeping Institute.

For any 110-120 volt current.
20K242¼—Postpaid..... **$8.95**

Kenmore Motor Driven Brush

$12.65 *Post Paid*

—Cleans by powerful suction combined with the beating, sweeping action of the revolving brush.
—Motor driven brush picks up all clinging particles—loosens all dirt.

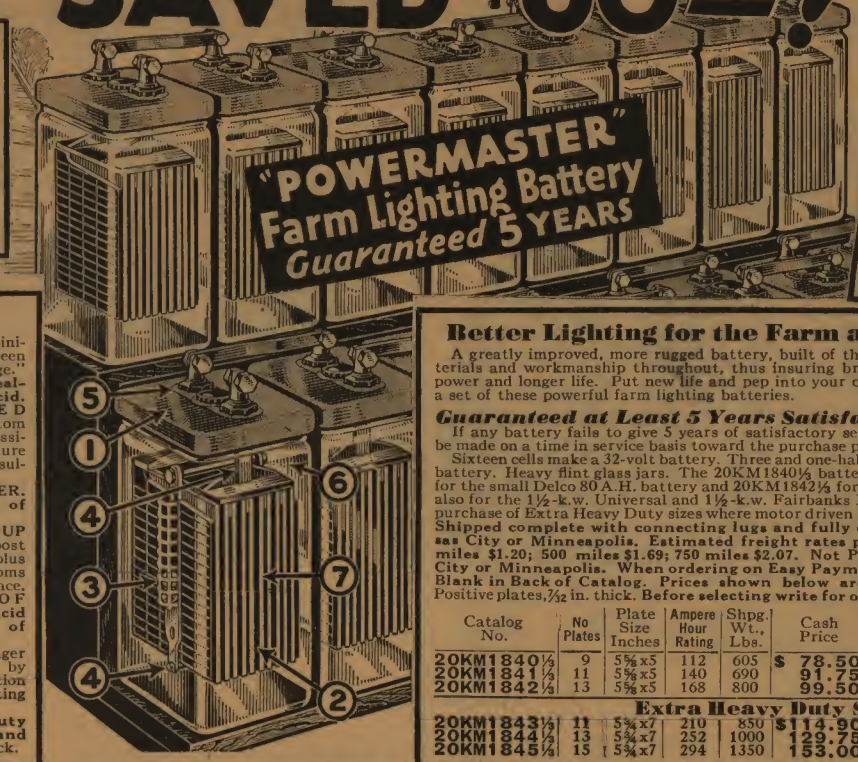
ARTHUR CHAPMAN

SAVED $60.00!

$78.50 And Up CASH



Sears Roe... The Far... Batteries ... from you ar... satisfactory. A saving of ... was one reason ... chased from Sears. ... other was your ... year guarantee that ... know is O. K. I bought them to replace a battery for 1½-k.w. Fairbanks Morse plant and they are working perfectly. I had no trouble installing them. They worked perfectly when connected, and were fully charged.

Arthur J. Chapman, Marseilles Ill.

FEATURES

1. **PORCELAIN COVERS.** Minimize surface leakage between posts preventing loss of "charge." Makes cleaning easier. **No sealing compound to leak acid.**
2. **COVER SUPPORTED PLATES.** Absence of bottom rests for plates reduces possibility of "shorts" due to failure of rests or formation of sulphate "trees."
3. **BUILT-IN HYDROMETER. Shows state of charge of battery at a glance.**
4. **RUGGED PLATE GROUP ASSEMBLY.** Extra heavy post and plate bridge design plus hard rubber rod holds bottoms of plates and separators in place.
5. **SPECIAL LEAKPROOF GASKETS. Prevents acid creepage and corrosion of inter-cell connectors.**
6. **LESS ATTENTION.** Longer periods between refilling by having extra volume of solution above plates where circulating value is greatest.
7. **LONG LIFE. Heavy duty plates made from pure lead and oxides.** Positives, 7/32 in. thick.

Better Lighting for the Farm at Less Cost

TERMS As LOW As $7.50 A MONTH

A greatly improved, more rugged battery, built of the highest quality materials and workmanship throughout, thus insuring brighter lights, greater power and longer life. Put new life and pep into your old plant by installing a set of these powerful farm lighting batteries.

Guaranteed at Least 5 Years Satisfactory Service

If any battery fails to give 5 years of satisfactory service adjustment will be made on a time in service basis toward the purchase price of a new battery.

Sixteen cells make a 32-volt battery. Three and one-half sets make a satisfactory 112-volt battery. Heavy flint glass jars. The 20KM1840½ battery is a standard replacement size for the small Delco 80 A.H. battery and 20KM1842½ for the large Delco 160 A.H. battery, also for the 1½-k.w. Universal and 1½-k.w. Fairbanks Morse Plants. We recommend the purchase of Extra Heavy Duty sizes where motor driven power devices are to be operated. **Shipped complete with connecting lugs and fully charged from factory at Kansas City or Minneapolis. Estimated freight rates per 100 lbs., 150 miles 75c; 300 miles $1.20; 500 miles $1.69; 750 miles $2.07. Not Prepaid. Send order to Kansas City or Minneapolis. When ordering on Easy Payments Use Time Payment Order Blank in Back of Catalog. Prices shown below are for 16-cell 32-volt batteries.** Positive plates, 7/32 in. thick. **Before selecting write for our engineers' recommendation.**

HOME OWNERS *What Do You Need?*

√ A NEW ROOF
√ A NEW BATHROOM
√ A NEW WATER SYSTEM
√ A NEW PAINT JOB
√ A NEW HEATING PLANT
√ A NEW LIGHTING PLANT
√ NEW LIGHTING FIXTURES
√ A NEW PORCH
√ NEW ADDITION TO YOUR HOME

ARE there a lot of things around your home that need fixing? Things you've been delaying because you didn't feel like spending all the money at one time? If you are a landlord, have you lost a tenant, or have you been obliged to lower rentals because your property lacked some of the modern improvements? Why don't you check over your property today—find out all the little things that need attention. Tell us what your hopes and plans are, and let us see if we cannot be helpful to you. Under our new plan all these jobs can be combined and for only one down payment you can begin the needed improvements. The table below shows how convenient we have made the terms. This new Sears way avoids "piece meal" extravagance.

FREE ESTIMATES

Let us give you a FREE ESTIMATE on the cost of ALL your jobs. FIRST, check below the FREE ESTIMATE blanks which you want to receive. When these reach you, they will help you to give us the information we need to prepare an accurate estimate.

SECOND, if you are interested in roofing, painting or building materials—send us complete information asked for on the coupon below so we can give you an accurate estimate on the cost of your home improvements.

Send Now for Information *and* FREE Estimates

Sears, Roebuck and Co.

I am interested in saving money on the items listed below. Please send me the FREE ESTIMATE Blanks I have checked, so I may give you full information regarding my Home Modernization problems. I understand that your engineers will then give me a FREE ESTIMATE of the cost based on your low prices. I understand further that I am under no obligation whatsoever.

☐ Plumbing Supplies: FREE ESTIMATE Blank K8206K
☐ Bathroom Fixtures: FREE ESTIMATE Blank K8206K
☐ Heating: FREE ESTIMATE Blank K6095K
☐ Water Systems: FREE ESTIMATE Blank K6558K
☐ Lighting and Wiring: FREE ESTIMATE Blank K6238K

FOR THE *Finest* BATHROOMS

Guaranteed First Quality . . . . No Seconds

The Euclid

- **Twin Jet flushing action.**
- **White or colored vitreous china tank and bowl.**
- **Mahogany finish, white or colored seat and cover.**
- **Rough in, 14 inches.**
- **Solid brass trimmings; nickel plated on white outfits; chromium plated on colored.**
- **Improved brass flushing mechanism.**

$15.45 And Up

Reverse Trap Twin Jet type closet bowl: The trap is at the rear of bowl instead of at the front. (See small illustration.) Thus eliminating the "hump" or "knee" as found on the washdown type of bowl. This feature greatly adds to the appearance of the bowl.

For supply pipe to floor add 50c. For chromium plated fittings on white outfits add $1.00.

Shpg. wt., 135 lbs. **Not Prepaid.**

42KM4705¼—Outfit complete. White with mahogany finish seat. **$15.45**

42KM4704¼—Outfit complete. White with white celluloid coated seat. **$16.98**

42KM5704½—Outfit complete in Green, Orchid or Ivory with seat to match **$29.95**

42KM4712¼—Outfit complete with cast iron white porcelain enameled tank and mahogany finish seat. Shpg. wt., 150 lbs. **$19.98**

White outfits shipped from our store; colored outfits from Southern Wisconsin. Easy Payments, see page 842.

FREE Estimate

Send us your plans or rough sketches for estimates on complete layouts of fixtures, including all pipe, fittings, etc. We also furnish Illustrated Instruction books.

$19.95 And Up

The Avondale

—Siphon jet flushing action; very quiet.
—White or colored vitreous china tank and bowl.
—Celluloid coated seat and cover.
—Rough in, 14 in.; deep water seal; 2⅛-in. trap way; large water area.
—Trimmings, nickel plated brass; chromium plated on colored outfits.

This is our finest closet outfit! Genuine **Siphon Jet flushing action**—the most efficient type known. Note, from the small illustration, that the down leg is longer than that in most others—thus making a far stronger siphon action; it also has a larger trap way. There is no horizontal surface not covered with water. The bowl is therefore much easier to keep in a clean and sanitary condition.

For supply pipe to floor, add 50c. For chromium plated fittings on white outfits, add $1.50.

Shpg. wt., 130 lbs. **Not Prepaid.**

42KM4709¼—Complete outfit, white with white seat. **$19.95**

42KM5709½—Complete outfit in Green, Orchid or Ivory; seat to match. **$33.95**

42KM4713¼—Same as 42KM4709¼ above, but with cast iron tank, porcelain enameled. Shpg. wt., 140 lbs. **$22.95**

White outfits shipped from our store; colored outfits from Southern Wisconsin. For Easy Payments, see page 842.

$10.35

White Sheet Steel Bathtub

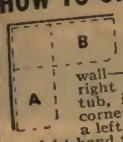
—Sheet Steel; white enameled finish.
—White enameled connected waste and overflow, threaded for 1-in. iron pipe.
—Width, overall, 27½ inches.

A very serviceable light weight sheet steel bathtub. Has substantial steel base, dustproof and sanitary. May be permanently connected in your bathroom by the addition of supply pipes and drain; or can be used as a portable tub without plumbing connections. Bath faucet and supply pipes not included. Shpg. wt., 70 lbs. **Shipped from Detroit, Michigan. Not Prepaid.**

42KM4474⅓—Length, 5 feet. **$10.35**

Modern . . . COLONIAL BATHTUBS » »

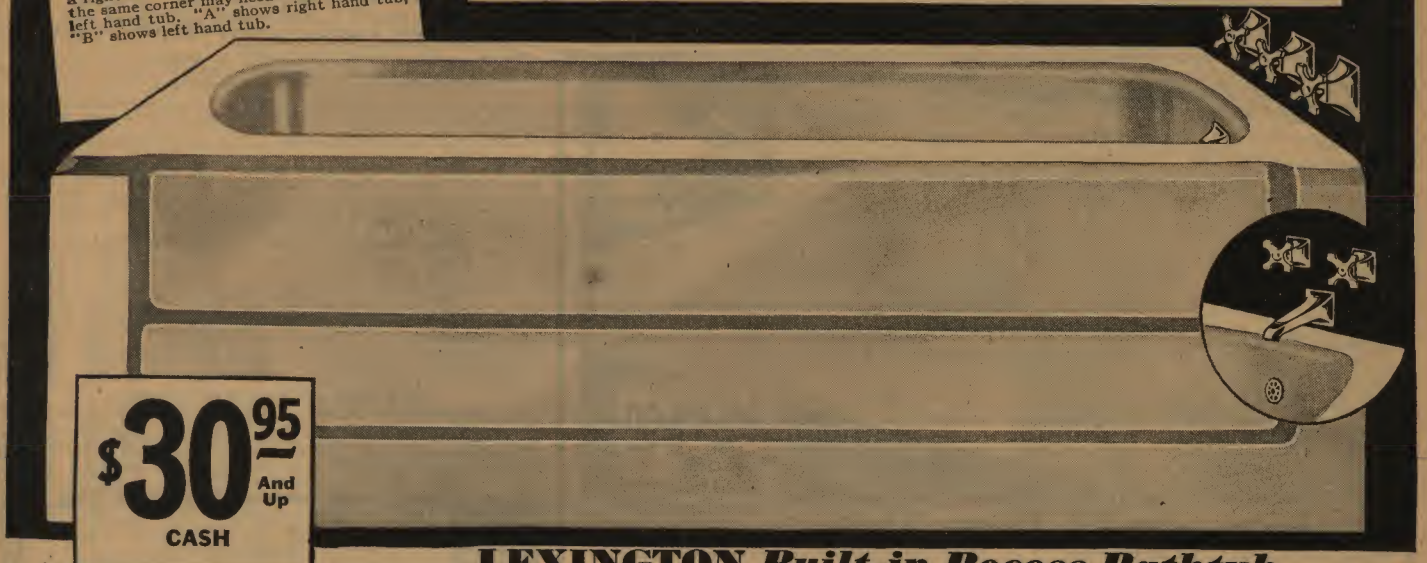
HOW TO ORDER A CORNER TUB



We list tubs for left or right hand corners. The end of the tub which fits or is "built-in" against the wall—determines whether it is right or left hand. When facing tub, if the end that fits in the corner is at your left, then order a left hand tub. If at right, order a right hand tub. This diagram shows how the same corner may need either a right or left hand tub. "A" shows right hand tub; "B" shows left hand tub.

You Can Always Depend on A-A-A Quality

Sears enamelware will look the same years from now as when first installed. The same rich color—the same glass-like finish. A continual source of pride and satisfaction. These qualities are not accidental—they are *built in*. When you see our Triple A-A-A Seal of Excellence (it is found on every piece of enameled ware we sell) you have our assurance that there is none better. When you buy at Sears you are ahead in quality and always sure of a saving.



$30.95 And Up CASH

LEXINGTON *Built-in Recess Bathtub*

—Cast iron, Triple A-A-A porcelain enameled.
—Your choice of White, Green, Orchid or Ivory.
—Tub is 31 inches wide overall.
—To be built-in at one side and both ends.
—Exposed fittings are New Art design; brass, nickel plated on white tubs, chromium plated on colored tubs.
—Concealed waste and supply fittings, all brass.

Iron pipe connection included. For chromium plated fittings on white tubs, add $1.50 extra. A concealed shower unit suitable for use with this tub is listed on page 846.

This modern Colonial style bathtub, with the very latest pattern all-metal fittings, is worthy of a place in the finest homes. Semi-flat bottom prevents slipping when stepping in or out of tub.

Shipped Not Prepaid. See note below.

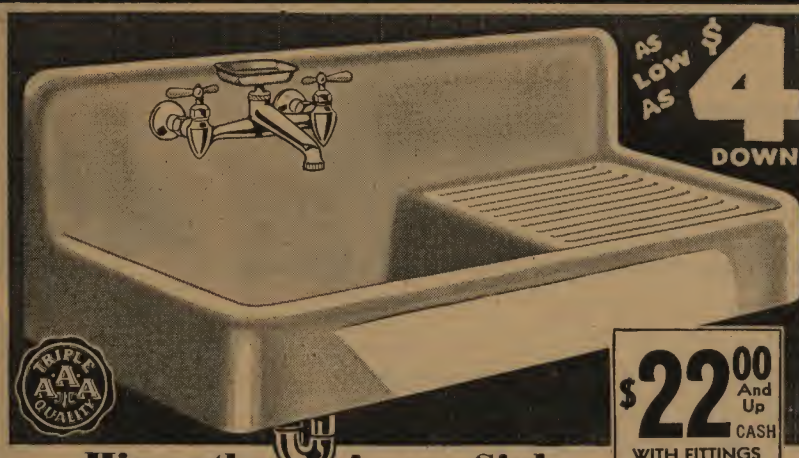
THE KIND OF SINK EVERY WOMAN WANTS

No woman need deny herself the pleasure and satisfaction of having a sink that meets the requirements of style, finish, beauty and long life. The Triple A-A-A Seal of Excellence is our guarantee that the sink so labeled is made according to the most advanced processes and is of the highest quality. Write for photograph showing Triple A-A-A enameled ware in colors. Prices are lower now. Use our Easy Payment plan as many others are doing.



Hiawatha Apron Sink

—Low 8-inch back; 6-inch apron front.
—Right or left hand drainboard.
—Heavy, one-piece, cast iron, Triple A-A-A Porcelain Enameled.
—Top spout mixing faucet with China soap dish and handles, boltless strainer, 1½-inch tubular trap to floor or wall; iron pipe connection. All fittings are Brass, either Nickel or Chromium plated.

This sink will be a prolonged source of satisfaction because of its simple beauty and delightful convenience. The low back makes possible the use of a full size window over the sink, utilizing outside light. Its glossy hard surface defies dirt and makes kitchen work easier.

Fittings are nickel plated with white sinks and Chromium plated with colored sinks. For chromium plated fittings on white sinks, add $1.50 extra.

All prices below are for sinks without legs. Two steel hangers furnished will support sinks without legs, if attached to substantial studding. If legs are wanted, add $3.75 for 2 adjustable painted legs. For porcelain enameled legs add $5.85 for white, $6.70 for colored. **Shipped from our Store or factory in Southern Wisconsin. Not Prepaid. Colored sinks from Southern Wisconsin only.**

Riveted and Welded Range Boilers

- Working pressures, 85 and 150 lbs.
- Heavily galvanized steel plate.
- All Seams Riveted and Welded.

These boilers are unusually strong and durable. They are made from heavy galvanized steel sheets, re-galvanized by the HOT DIP process after manufacture. This produces a uniform coating that gives far greater protection than ordinary methods.

Boilers complete with fittings include stand, cold water tube and four ¾-inch couplings. Prices of range boilers only do not include stand or any fittings. **State size.**

$5 DOWN for GUARANTEED AUTOMATIC WATER HEATER

Your Assurance of Safety

Tested and approved by the American Gas Association Testing Laboratory.

$34.95 CASH And Up

- —Heavy Copper Bearing Steel Tank. Tested to 300 lbs. Pressure.
- —Genuine Aircell Asbestos Insulation Prevents Heat Loss and Saves Fuel.
- —Steel Outer Jacket with Beautiful Green and Cream Lacquer Finish.
- —Inner Flue with Helical Retarder or Baffle Increases Heating Efficiency.
- —Snap Action Adjustable Thermostat Turns Main Burner On and Off.
- —Automatic Safety Pilot; Gas Is Shut Off If Pilot Goes Out.
- —Improved Burner Insures Low Gas Consumption.
- —Temperature and Pressure Relief Valve Included.

At this record low price, our new Automatic Storage Gas Water Heater is a triumph! Doubly strong, entirely automatic and effectively insulated—no other household appliance will give you greater constant comfort at so little cost!

Thermostatic control turns the gas on and off automatically. As water is withdrawn, more is heated. A storage supply of hot water is always maintained.

Safety pilot automatically shuts off gas if pilot goes out. **Safety relief valve** automatically releases overflow whenever water pressure or temperature gets beyond the working limit of the heater. An **improved burner** and large diameter **heating flue** assure more rapid circulation of water and prevent heat loss. A **helical flue retarder** practically doubles the heat travel, while **genuine air cell asbestos insulation keeps the heat in—the water hot, ready for every need.** Beautifully finished in green and cream lacquer. Adjustable for natural or artificial gas. **Not Prepaid.**

42K1751—Similar to above, for use on hot water heating plants, closed systems..$3.55

WATER HEATER AND TANK COMBINED

- Heavily galvanized tank, guaranteed for 85 lbs. working pressure.
- Burner adjustable for artificial or natural gas.
- Tappings for connection to auxiliary heating coil in stove or furnace if wanted.
- Flue passage built into storage tank.

$16.65 CASH And Up

We Save You Up to $10

This combination Galvanized Range Boiler and Water Heater gives you quick hot water service at a substantial saving in initial cost. It's not automatic—you light the gas and turn it off when enough water is heated. Nevertheless it's worth much more than we ask in the comfort and convenience it brings. Easily installed—needs only a square foot or two in floor space and 5 to 6 feet in height. We recommend using Safety Relief Valve shown at the left. **Shipped Not Prepaid.**

42KM2592¼—Capacity, 17 gallons. Tank diameter, 12 inches; height, 4 ft. Shpg. wt., 93 lbs.....$16.65

7 BIG REASONS Why this is a Better Blow Torch

$3.35 Postpaid

1. New Needle Valve. Will never enlarge or clog. Flame is not affected by low temperatures or high winds.
2. Larger, non-corroding Burner, 85% copper, balance tin, lead and zinc.
3. Bakelite Burner Wheel is always cool.
4. Long underflow for preheating; handy cleanout plug.
5. Heavy seamless sheet brass tank; carefully tempered.
6. Pump, ⅞-in. diameter, mounted on tank, permits one hand pumping.
7. Funnel-shaped sheet brass base with bronze casting filler plug.

Compare this sturdy Blow Torch point by point with those selling elsewhere for much more money. The Burner is larger than most torches costing up to $5.00. Meets U. S. Navy Specifications. You will find that The Hercules will serve you better, longer, and at far less cost than its closest rival.

Torch will develop over 2200 degrees of heat. Burner is of the best known alloy for the purpose. Removable solder iron holder. Useful for soldering, thawing out frozen pipes, burning off old paint, or as a small blast furnace. Postpaid.

42K1100
Capacity, 1 qt. $3.35

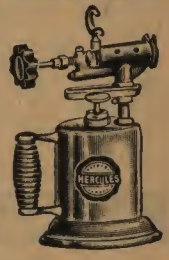
Self Generating Blow Torch

—Lights instantly.
—Easy starting regardless of weather.
—Auxiliary self-generating burner eliminates drip cup.
—Not affected by low temperatures or high winds.
—Improved non-clog needle valve.
—Best bronze burner.
—Bakelite burner wheel.
—Heavy seamless sheet brass tank.
—Sturdy pump, ⅞-in. diameter, mounted on tank.
—Funnel shape sheet brass base, with bronze casting filler plug.

We firmly believe this is the best and most up-to-the-minute torch on the market. It will light in one-fifth the time required by a regular torch with drip cup. Capacity, 1 qt.

42K1102—Postpaid $4.89

Our "Big Bargain" Blow Torch



—New Type Needle Valve.
—Bronze Mixture Burner.
—Composition Burner Wheel.
—Long Underflow for Preheating.
—Seamless Brass Body with Lacquered Satin Finish.
—Tank Bottom of Steel with sheet lead lining.
—Capacity; one quart.

Similar to above torch, but lighter. Sturdy pump mounted on tank permits one hand pumping. Does everything that the more expensive torches can do—but is not so strongly built.

42K1101—Postpaid $2.75

Closet Cleanout Auger

—Flexible coil, high grade spring steel.
Easily removes stoppages from closet bowl. Shpg. wt., 2 lbs. 4 oz. Length overall, 5½ ft. Postpaid if part of $2 order.

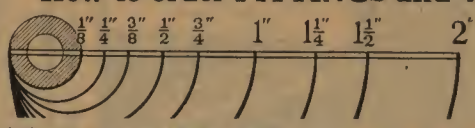
PIPE Black or Galvanized

6¢ Per Foot ½ Inch GALVANIZED

All Items On This Page Shipped Not Prepaid

SHIPPING WEIGHTS of pipe fittings vary, according to number ordered and method of shipment. Estimate of shipping weights, freight, express or parcel post charges furnished if desired. Send list for estimate.

How to order FITTINGS and VALVES



Sizes of pipe and fittings in this catalog refer to the INSIDE diameter of the pipe. The pipe sizes given for fittings, valves, etc., refer to the inside diameter of the pipe to which they connect, not to the diameter of the threads on the inside or outside of the fitting itself. For example, the outside diameter of ¾-inch pipe is almost 1-inch, so the threaded opening of any ¾-inch valve or fitting measures about 1 inch in diameter. That is why many people make the mistake of ordering fittings too large. The diagram shown here gives exact **outside** diameter of all pipe sizes from ⅛-inch to 2-inch. **Be sure to order correct size.**

● CLEAN SHARP THREADS

—Sizes, ¼-in. to 3 in., black and galvanized.

—Average length 20 ft., 6 in. threaded at both ends, with 1 coupling.

● STRONGLY WELDED

● UNIFORM THICKNESS

Inside Diam. In.	Shpg. Wt., Per Ft., Lbs.	42KM1200¼ Black, per Foot	42KM1201¼ Galvanized, per Foot	Threads Extra Each End

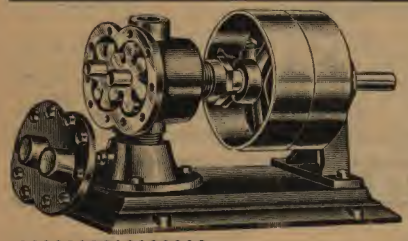
ACME ROTARY FORCE PUMP



$12.60 And Up

13 to 17 GALLONS *Per Minute*

—Made of Tough Clear Grain Cast Iron.
—Simplest Design.
—Long Life construction.
—New Gears can be installed in a few minutes by Easily Removing Head.
—Two Expertly Machined Cast Iron Gears Meshing into Each Other Perfectly—Assuring Quiet Operation.
—Has Tight and Loose Pulleys.

If wanted with balance wheel and handle for hand pumping, allow $5.50 extra. This pump is for water and heavier liquids. If spout is wanted, add 75c extra.

Forces water a horizontal distance of 200 feet, where lift is not over 15 ft., and elevated tank not over 110 feet above pump. Throws a solid stream 20 feet. Can be run at 300 revolutions per minute, although 200 is recommended. Can be belted to an engine, having a speed of 500 R.P.M., with a 4-inch pulley, giving pump a speed of 200 R.P.M. Cannot be belted direct to an electric motor using the size pulleys designated below. **Not Prepaid.**

CENTRIFUGAL PUMPS for BIG JOBS

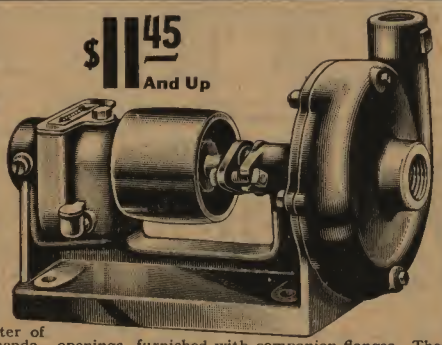
—Suitable for 20-foot Direct Vertical Lift, 15-foot Lift with Horizontal Suction.

—Will Operate Against Total Head of 65 Feet.

—Bronze Bearings; Ring Oiling Pedestal Bearing. Extra Long Stuffing Box.

—Efficient, practical, scientifically designed and sturdily constructed.

$11.45 And Up



Suitable for trench or furrow irrigation, or where a large volume of water is to be handled. Not suitable for household pumping use. Can be belted direct to line shaft, engine or tractor. Power requirements vary with conditions. Centrifugal pump results depend on proper installation and correct speed. When ordering state length of horizontal and vertical suction, also discharge. State size motor or engine to be used, speed of same, and diameter of pulley. We will gladly make recommendations for your installation.

These pumps are not self-priming. Size 2½ has flanged suction and discharge openings, furnished with companion flanges. The smaller sizes have openings tapped for pipe connection as shown. Complete instructions furnished.

For Easy Payments see Page 842. Not Prepaid.

PUMP *Automatically* FROM YOUR DEEP WELL

COMPLETE Outfit
$99.85 CASH
FOR 50-FT. WELL

For Wells 22 to 200 Ft.

Pump Head Only With ⅓ H. P. Electric Motor— $55.95 CASH

EASY TERMS AS LOW AS $5 DOWN

- —Pressure switch starts and stops pump automatically.
- —Repulsion-induction type motor.
- —Capacity, approximately 135 gallons per hour.
- —All gears, shafts, bearings, etc., splash lubricated.
- —Extra heavy V-type belt eliminates idler pulley; gives even power flow.
- —Auxiliary air pump keeps positive air supply in tank.
- —Check valve shuts off air supply when desired pressure is attained.
- —Can be connected to pressure or elevated storage tank.
- —Encased machine-cut gears; water-proof oil chamber.
- —All parts accessible and easily removable if necessary.
- —1 13/16x6-inch stroke cylinder; 15 to 35 lbs. pressure.

For wells ranging from 22 to 95 feet, select ½-H.P. motor. For wells ranging from 95 to 200 feet, select ½-H.P. motor. If your well is deeper or shallower than specified below, add or subtract 39c per ft. for pipe and rod to prices quoted. For special outfits, such as heavy duty outfit for sprinkling, etc., write for prices and free engineering service.

Motors are 110 to 220-volt, 60 cycle, A.C. or 32 cycle D.C. If 25 or 30-cycle motor is needed, a slight extra charge is made. When ordering, be sure to state kind of current you now have. If larger tank is wanted, state size and whether horizontal or vertical. Either style is furnished at the same price. Inlet tapping, 1-inch; outlet, ¾-inch (or larger).

For Frostproof Set length, add $3.15; for fresh drinking water connection, add $3.95.

Estimated freight charges per 100 lbs.: 150 miles, 75c; 300 miles, $1.20; 500 miles, $1.69; 750 miles, $2.07. Shipped from factory in Northern Illinois. Not Prepaid.

42KM2250⅓—Working Head only, with ⅓-H.P. motor, but without other equipment. Tapped for 2½-in. suction; 1¼-in. discharge. Shpg. wt., 205 lbs.
Cash Price, Not Prepaid.....$55.95
Easy Payment Price, $5.00 down, $6.00 per month..... 61.45

42KM2251⅓—Deep Well Outfit, complete for 50-foot well, with ⅓-H.P. electric motor mounted, a 42-gallon galvanized vertical tank, automatic switch, valves, gauge and fittings, as illustrated, 2-in. galvanized suction pipe, 1⅛-in. wood pump rod with couplings, and a 1 13/16x6-inch stroke brass spring poppet check valve cylinder tapped 2-inch top and bottom. Shpg. wt., 505 lbs.

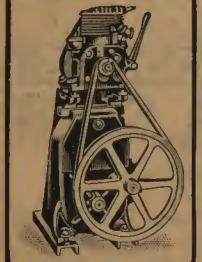
Semi-Automatic Gas Engine Outfit



Special Gasoline Motor Mounted on Pump Head.

- —Driven by Briggs & Stratton 4-cycle engine.
- —Larger tank; 120-gallon capacity.

Deep well outfits similar to those listed above, but with gas engine drive and larger tanks. For different depths than quoted, add or subtract 39c per foot for pipe and rod. For wells up to 95 feet, select ½-H.P. engine; for wells 95 to 200 feet, select 1-H.P. engine. Read specifications above as to stroke, cylinder, etc.

42KM2255½—Deep Well Outfit Complete for 50-foot well, ½-H.P. gasoline engine as shown at left and 120-gallon galvanized tank. Shpg. wt., 615 pounds.
Cash Price, Not Prepaid.....$123.00
Easy Payment Price, $10 down, $9 per month.. 134.00

42KM2256½—Same, except with heavy duty 1-H.P. engine for 95-ft. well. Shpg. wt., 825 lbs.
Cash Price, Not Prepaid.....$155.00
Easy Payment Price, $15 down, $11 per month. 170.00

42K2318—Extra Plunger Leathers for water cylinder, 1 pair, size 1⅜-in. Shpg. wt., 4 oz.....25c

42K2319—13/16-inch. Leather for air valve. Shpg. wt., 3 oz.....10c

Leathers are postpaid if included in $2 order. Outfits shipped from factory in Northern Illinois. Not Prepaid. When ordering on Easy Payments use Time Payment Order Blank.

3 Ways to Use This System

Operated by Electric Motor

With Gas Engine Drive

With Line Shaft or Remote Engine Drive

Use Our FREE Engineering Service

Let us help you solve your pumping problem. Write, giving full information, and we will gladly recommend an installation to meet your particular needs.

FOR SHALLOW WELLS

Up to 22 Feet

Pump and Engine Unit $61.50 CASH

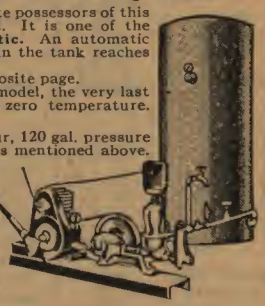
Gasoline Engine-Driven Water Supply

- —Double acting reciprocating pump.
- —Vertical lift, up to 22 feet; horizontal draw, up to 100 feet.
- —Capacities, 225 and 450 gallons per hour.
- —Gasoline engine, 4-cycle "L" Head construction, ½-H.P., 1750 R.P.M.
- —Automatic pressure switch stops pump.
- —Silent V-type belt; piston rod deflector; large air chamber; Schrader air intake valve; suction and priming chamber.
- —Every part of pump coming in contact with water is galvanized.

Lack of electric power is no handicap to the fortunate possessors of this efficient, compact, gasoline-engine-driven pump unit. It is one of the finest we are able to obtain, being **semi-automatic.** An automatic pressure switch stops the pump when the pressure in the tank reaches 35 pounds.

The **pump** is the same model described on the opposite page.

The **engine** is an entirely new Briggs & Stratton model, the very last word in pumping power. Easy starting, even at zero temperature. **Shipped Not Prepaid.**



42KM2225¼—Outfit complete, 225 gal. per hour, 120 gal. pressure tank, pressure gauge, strainer, check valve and parts mentioned above. Suction tapping, ¾-in.; discharge, ½-in. Shpg. wt., 400 lbs. Cash Price.....$81.95

42KM2236¼—Heavy Duty Outfit, 450-gal. per hour; 120-gal. tank. Suction tapping, 1¼-in.; discharge, ¾-in. Shipping weight, 450 pounds. Cash Price.....$108.95

42KM2226¼—Engine and pump only. No tank, piping or tank fittings. Shipping weight, 110 pounds. Cash Price.....$61.50

For Easy Payments see page 842.

City Convenience NOW at REDUCED PRICES

For homes with running water but no sewers.

$14.95 And Up

1. **Entire tank made of 14-gauge Copper Bearing Steel; Resists Rust.**
2. **Electrically Welded and Watertight. Covered with Asphalt.**
3. **Positively no chemicals needed. Decomposition Goes on Continually.**
4. **Built-in Connections Keep Pipe in the Right Position.**

HERCULES SEPTIC TANK

Sewage disposal is no longer a problem since this latest reduction in Hercules Septic Tanks. Not a particle of the old reliable high quality has been sacrificed. We guarantee it to measure up to any standard of quality and construction. Install this highly efficient outfit on your premises and it will return large dividends in health and convenience for years to come.

Protect your family's health while prices are down! Installation is simple and we furnish complete instructions. HERCULES Septic Tanks are safe, sanitary and odorless. By a natural process of bacterial action, and aeration in the tile disposal bed, the sewage is purified and all germs killed. This decomposition goes on continually without any attention.

READ WHAT USERS SAY!

"The Septic tank is giving perfect satisfaction. I can't figure out how a tank of that size and quality can be produced at the price."

Frank Harrison
Grubbs, Iowa

EASY to INSTALL

We recommend the selection of a tank one size larger than actual requirements. Shipped Not Prepaid. For Easy Payments see page 842.

Estimated Freight Charges on Septic Tanks, per 100 Pounds: 150 Miles, 75c; 300 Miles, $1.20; 500 Miles, $1.69; 750 Miles, $2.07.

STANDS the TEST of HARD SERVICE!

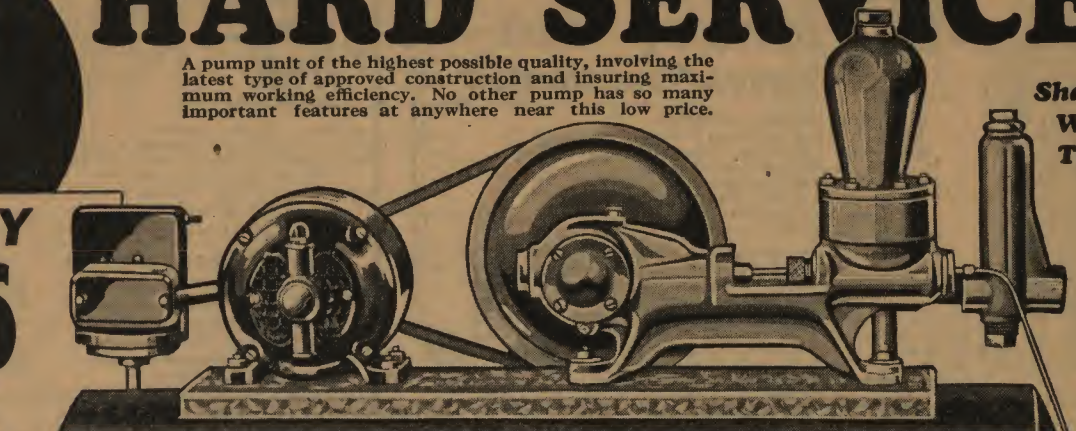
A pump unit of the highest possible quality, involving the latest type of approved construction and insuring maximum working efficiency. No other pump has so many important features at anywhere near this low price.

Shallow Well Type

NOW ONLY

$51.45

CASH And Up



Ever Ready RECIPROCATING PUMP WATER SYSTEM

AS LOW AS $5 DOWN

Note Its Many FEATURES

1. **Double acting reciprocating Pump.**
2. **Entire pump is galvanized. Resists rust—prolongs life.**
3. **Powerful repulsion-induction type motor of well-known make.**
4. **Automatic switch starts and stops pump, maintaining even pressure.**
5. **Air Volume Control automatically maintains air in tank and prevents water logging.**
6. **Dial Pressure Gauge shows the pressure in tank accurately at all times.**
7. **Silent V-type Belt runs in grooved pulleys. Will not slip or "throw off."**
8. **Large Air Chamber prevents pulsation and insures an even flow of water.**
9. **Suction and Priming Chamber assists in retaining prime and prevents water hammer.**
10. **Piston rod deflector prevents water leaking from stuffing box into crankcase.**
11. **Tank is heavily galvanized inside and outside. All seams carefully welded and tested.**
12. **Positive Oiling System insures constant flow of oil to center of crankshaft bearing and crosshead bearing.**

2 EXTRA FEATURES *Make It Outstanding*

● AUTOMATIC AIR CONTROL ● GALVANIZED PUMP

Why pay $75 or more for an electric water supply outfit . . . when this *guaranteed* automatic pumping system has all the worthwhile features of any $75 outfit made? . . . This high grade pumping system is *new! Improved!* For now it not only has every feature of the higher-priced systems—but also the new *air-volume control* and our special *all galvanized* feature besides!

Air Volume Control positively prevents "water logging" the tank. **All Galvanizing** makes outfit rust- and corrosion-proof, and water tight. Pump is shallow well type, drawing water from wells, springs, cisterns, lakes, streams, etc. It will pump any distance within 100 feet, with a vertical lift up to 22 feet. Delivers 225 gallons of water per hour. Piston assembly easily removable, thus cup leathers can be easily replaced when worn.

Powerful ¼-H.P. **repulsion-induction type motor.** Tank of heavy galvanized steel, 18-gallon capacity, size 12x36 inches. Water relief valve, foot valve and strainer included. Can be furnished without a tank or with a 42-gallon upright tank. Easily installed. Instructions furnished. Suction tapping, ¾-in.; discharge tapping, ½-in.

Shipped Not Prepaid.

Capacity, 225 gallons per hour	Shpg. Wt.	Cash Price	Time Price	Terms Down	Terms Month
42KM2200¼—Outfit complete as illustrated, with 18-gal. galv. tank and motor for 110 to 220-volt, 60-cycle A.C.	135 lbs.	$51.45	$56.95	$5.00	$6.00
42KM2201¼—Same, but with 42-gal. galvanized vertical tank	230 lbs.	61.45	67.95	6.00	7.00
42KM2202¼—Same, but without tank	130 lbs.	49.45	54.45	5.00	5.00

For 25-volt or 32-volt motor, add $3.00 extra.

ESTIMATED FREIGHT CHARGES on Ever Ready Outfits per 100 Pounds

150 Miles	$0.75
300 Miles	1.20
500 Miles	1.69
750 Miles	2.07

If you want water for Sprinkling and Watering Stock, as well as for valuable Fire Protection, this is the pump to order.

PUMPS 450 GALLONS PER HOUR

$72.95 CASH

Double the Volume of Water

For only about one-third more than we ask for the 225-gallon outfit listed above, you can have this **Heavy Duty,** 450-gallon water system with just double the capacity. It has all the features of the outfit described above, but is larger and has greater capacity. Equipped with a **double cylinder pump, ⅓ H.P. motor,** and **33-gallon galvanized tank.** Can be furnished with larger tank if desired; write for prices.

Pump also has **fresh water tapping** and **check valve.** By running a pipe from this opening to any one faucet, you get **fresh, cold water** direct from the well.

This outfit will supply water for 8 to 12 persons, 40 head of stock, and heavy sprinkling. Gives valuable **fire protection,** as it throws a heavy stream of water from a hose nozzle. Suction tapping, 1¼-inch; discharge tapping, ¾-inch. We include **Relief Valve, Foot Valve and Strainer,** instruction book and can of oil.

Shipped Not Prepaid.

Capacity, 450 gallons per hour	Cash Price	Time Price	Terms Down	Terms Month
42KM2210½—Outfit, with 33 gal. galv. tank and ½ H.P. motor for 110 to 220-volt, 60-cycle A.C. Shpg. wt., 200 lbs.	$72.95	$80.45	$7.00	$7.00
42KM2211½—Same, but without tank. Shpg. wt., 145 lbs.	69.95	76.45	6.00	7.00

For 25-cycle motor add $6.50. When ordering on Easy Payments use Time Payment Order Blank in back of catalog.

Here's How to Figure Your Water Requirements

Use this table in figuring the amount of water you will need per day.

Each member of the family for all purposes, including bath, water closet, kitchen and laundry.....25 gal.
Each horse.....10 gal.
Each steer or dry cow.....12 gal.
Each milk producing cow.....25 gal.
Each hog.....2 gal.
Each sheep.....1½ gal.

For sprinkling lawn or garden, figure 7 to 8 gallons per 100 sq. ft; or, for ½-inch hose with nozzle, figure 200 gal. per hour; for ¾-in. hose with nozzle, 300 gallons per hour.

Low Prices—Approved Sprayers

$4.55 And Up Meets Every Spraying Need—Saves You Money

Postpaid

- Develops pressure of 90 lbs.
- 2-inch seamless Brass Pump
- 3¾-gal. Brass or Galvanized Steel Tank, 7½x20 inches; riveted seam
- Quick acting cam lever pump lock
- 5-ply ⅜-in. heavy hose, 20 inches long
- Automatic shut-off valve
- 2-ft. Brass extension pipe

The lowest price our shoppers found anywhere on a sprayer of this quality and having so many practical uses was $5.50. *Hercules Portable Compressed Air Sprayer* can be carried about easily by means of the adjustable shoulder strap sling. Throws a continuous misty spray, fine for fruit trees, vines, cotton, berries and garden truck. Also used for whitewashing, washing windows and autos. Has elbow for spraying under leaves. Will also throw solid stream. Spraying Calendar packed with each Sprayer.

Big Price Reduction on HERCULES Automatic AIR COMPRESSOR

EASY TERMS AS LOW AS $8 DOWN

See Page 842 for Easy Payment Terms

- **Automatic switch starts and stops motor to maintain constant pressure in the tank.**
- **Heavy gauge steel tank, tested to 500 lbs. pressure.**
- **Powerful Repulsion-induction type motor, high torque.**
- **Compressor is lubricated by dependable splash oiling system; Air-cooled from fan blades on flywheel.**
- **Timken Roller Bearings.**
- **Automatic safety valve releases excess pressure.**
- **Improved V-Type belt prevents slipping.**
- **Dill chuck and 20 feet of air hose furnished.**

Here's the ideal Compressor for **garages, filling stations, tourist camps and shops**—ideal in its simplicity and utter dependability; unlike others, **it can run heavily loaded for hours without over-heating.** It is made of only such materials as are deemed the best for the purpose selected, hence it will give a duration of service much in excess of other compressors not built to such high standards. A compressor of similar quality would cost you elsewhere up to $135.00!

Furnished in four sizes as listed below, with capacities of 1⅓, 2½, 3¼ and 8¼ cubic feet of air per minute. The 1⅓-cubic foot type has 1½x3-inch pressure cylinder; 2½-cubic foot type has 2x3-inch pressure cylinder; 3¼-cubic foot and 8¼-cubic foot type are 2-stage operation; Low pressure cylinder 3x3-inch, high pressure cylinder 1½x3-inch. Air cleaner acts as muffler. Timken Roller Bearings insure minimum of friction and longer life. **For Easy Payments see page 842.**

Prices below are for outfits with 110–120, or 210–230-volt, single phase 60-cycle A.C., also 25 or 30-cycle as shown in last column. Write for prices on motors of other voltages, cycles or phases, or gasoline engine-driven outfits.

Catalog No.	Capacity Cubic Ft. per Min.	Floor Space Inches	Motor Size	Tank Size Gal.	Shpg. Wt., Lbs.	Cash Price	Add for 25 or 30 cycle motor

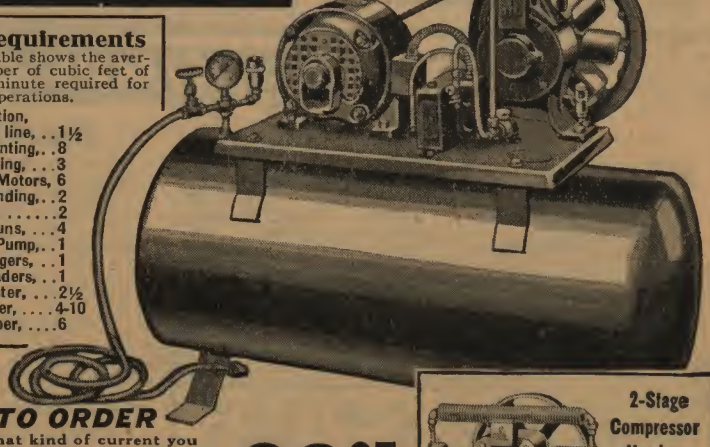
Air Requirements

This table shows the average number of cubic feet of air per minute required for various operations.

Tire Inflation, per tire line,	1½
Spray Painting,	8
Spring Oiling,	3
Cleaning Motors,	6
Valve Grinding,	2
Air Doors,	2
Grease Guns,	4
Gasoline Pump,	1
Tire Changers,	1
Tire Spreaders,	1
Brake Tester,	2½
Car Washer,	4-10
Rim Stripper,	6

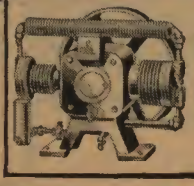


HOW TO ORDER

State what kind of current you use. If in doubt, ask your local power company.

Order a compressor large enough for your needs. The smallest size is suitable for light work only, such as small garages and refreshment stands. Larger sizes are recommended where air requirements are heavier. See table above.

$83.95 CASH And Up



2-Stage Compressor Used on 3¼ and 8¼ Cu. Ft. Sizes

LONG LIFE HEAVYWEIGHT LIFT PUMPS

$4.98 And Up

—Guaranteed for wells up to 60 ft. deep by adding extra pipe and pump rod
—6-inch stroke
—4-ft. set length
—Takes 1¼-inch pipe

A strong, sturdy lift pump, built for rugged service. This pump will serve you better and far longer than light, medium-weight pumps offered at about the same price or even higher elsewhere. Cylinders extend 4 feet below pump base. Drip hole above cylinder permits water to drain to this point and prevents freezing. **Not Prepaid.**

3x10 Inch or 3½x10 Inch Cylinder

42KM2351¼—Heavyweight Pump with **3x10**-inch iron cylinder. Four-foot set length. Shpg. wt., 62 lbs. **$4.98**
With brass-lined cylinder **$6.35**

42KM2352¼—With **3½x10**-inch iron cylinder. Four-foot set length. Shpg. wt., 65 pounds **$6.60**
With brass-lined cylinder **7.85**

42KM2355¼—Pump Standard only, without cylinder, pipe or pump rod. Shpg. wt., 38 lbs. **$3.10**

To Make Above Pumps Complete

For wells less than 25 feet deep, order 1¼-in. black or galvanized pipe as listed on page 852.
For wells more than 25 feet deep, with cylinder extended to water, add 18c per foot for black, or 21c per foot for galvanized pipe and rod to make complete outfit. **Not Prepaid.** For shpg. wt., add 2½ lbs. per ft. of extension.

Pumps of Highest Quality

Sears' Lift and Force Pumps are well made of best grades of materials and **heavier** than many pumps offered elsewhere.

HOW TO ORDER

Wells are of two kinds: (1) Shallow Wells and (2) Deep Wells.

(1) Shallow wells are those where the distance from the pump platform to the lowest water level is less than 25 feet. In these wells use one of our 4-foot set length pumps quoted on this page. The cylinder is placed about 4 feet below the pump. Order enough pipe to reach within two or three feet of bottom of well.

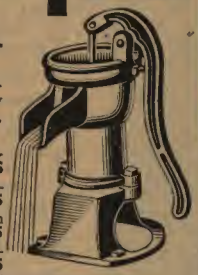
(2) Deep Wells are those where distance from pump platform to lowest water level is more than 25 feet. In these wells the cylinder must be placed below the water level at bottom of extension pipe and pump rod is extended down.

Lift pumps draw water to the pump spout only. If you want to force the water to an elevated tank or pressure tank, order a force pump. We charge 2c per foot in addition to cost of pump rod and pipe, for cutting and fitting pump outfits to specifications.

Pitcher Spout Pump

$1.45 3-IN. IRON

—For wells or cisterns 20 feet deep or less
—Tapped for 1¼-inch pipe
—Handle operates from any direction



Made of heavy cast iron, well constructed and offered at a very low price. Pipe not included. Shpg. wt., 23 lbs. **Not Prepaid.**

42KC2370¼—With 3-in. iron cylinder **$1.45**
42KC2371¼—With 3-in. brass-lined cylinder **$1.95**
42KC2372¼—With 3½-in. iron cylinder **$1.85**
42KC2373¼—With 3½-in. brass-lined cylinder **$2.35**

Cistern Force Pump

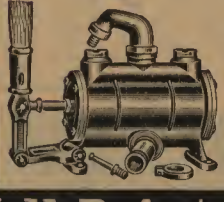
$4.50 And Up

—For wells or cisterns 20 ft. deep or less
—3-in. brass cylinder, valve seat, stuffing nut
—Bronze pump rod; plain gooseneck or faucet spout
—Spout is threaded for hose coupling
—Takes 1¼-inch pipe; pipe not included
—Top discharge outlet tapped for 1-in. pipe for pumping to higher tanks, etc.

Shpg. wt., 25 lbs. Not Prepaid.
42KC2377¼—Plain spout **$4.50**
42KC2379¼—Faucet spout **5.00**

Sturdy Tank Pump

$10.00



—Pumps 50 gallons per minute
—Suction limit, 20 feet
—Has brass valve seats
—5-in. cylinder, 5-inch stroke
—Suction and discharge threaded for 2-inch iron pipe
—Hose connections and nozzle
—2-inch hose nipple for suction

Adapted for maximum pressure of 50 pounds. Ideal for filling thresher tanks, emptying cesspools, etc.
42KM2366¼—Shpg. wt., 78 pounds. **Not Prepaid... $10.00**
42K2322—5-in. crimped plunger leathers. Set of 2. Shpg. wt., 2 lbs. **Postpaid if part of $2 order** **69c**

WINDMILL and HAND FORCE PUMP

$8.15 And Up

—Iron or brass lined cylinder.
—4-ft. set length
—Takes 1¼ inch well pipe

These pumps are of the very highest quality and extra heavy construction. Spouts have hose clevis so that by inserting a blank leather washer, water can be forced to elevated tank or through hose for sprinkling, washing windows, autos, etc. Bottom of cylinder comes 4 feet below pump base.

To Make Above Pumps Complete

For wells less than 25 feet deep, order 1¼ in. black or galvanized pipe as listed on page 852.
For wells more than 25 feet deep, with cylinder extended to water, add 18c per foot for black, or 21c per foot for galvanized pipe and rod to make complete outfit. **Not Prepaid.** For shipping weight add 2½ lbs. per foot of extension.

Windmill Force Pumps

For wells up to 150 ft. deep. Can be operated by hand, windmill or pump jack. Tapped back of spout for 1¼-inch pipe. **Shipped Not Prepaid.**

Catalog No.	Size of Cylinder, In.	Lgth. of Stroke, Inch	Shpg. Wt., Lbs.	With Iron Cylinder	With Brass Lined Cylinder

Pump Standard Only

Same as above but without Cylinder or Set length.
42KM2362¼—Standard only Shpg. wt., 55 lbs. **$5.55**

Well Boring Outfit

$7.30

—Bores wells 25 ft. deep, 8 to 14 in. in diam.
—Through sand, clay, gravel, sticky clay, or mud.
—New type earth auger with iron pipe extension, giving total length of 25 feet.
—Hardwood handle.
—Special blade.

Bores wells or digs postholes quickly and with the minimum of effort. Will dig under water. Can be used for digging holes for foundation piling for barns, etc. Shpg. wt., 45 lbs.

Not Prepaid. 42KC2310¼. **$7.30**

For other posthole implements refer to Index.

Little Giant Pipe Holder

—For 1, 1¼, 1½ and 2-in. well pipe.

Shpg. wt., 25 lbs.
42KC2311¼
Not Prepaid... **$3.05**

Malleable Iron Driving Caps

42K2312—Screw on well pipe to protect threads when driving pipe. **Postpaid if included in $2 orders.**

STANDARD WEIGHT FURNACE

$42.50 CASH And Up

- Made of good grade gray iron castings.
- All seams and joints are deep flanged and cement sealed.
- Two-piece radiator with double cup joint—tightly fitted, cemented and bolted together.
- Strong, ribbed combustion dome. Sturdy and deep jointed.
- Two-piece ribbed fire pot—strong and durable with deep leak-proof cup joints.
- Large feed door with smoke curtain.
- Roomy ash-pit—plenty of air space below grate.
- Hot Blast opening in feed door.
- Triangular bar-type grates.
- Double casing of 26-gauge galvanized iron.
- Large capacity water pan.

SCIENTIFIC COMBUSTION *with* POSITIVE FUEL ECONOMY

The *Volcano* cast iron furnace was built to meet the needs of those who want a standard weight furnace at a low price. It gives good heating results where the air supply is from the inside, and the warm air pipes are not over average length.

Frankly, at the price we ask, this furnace is a wonderful value. Literally thousands of people can now heat their homes with furnace heat who could not have done so before. Best of all, they can buy on easy payments. As little as $5 down will bring you this furnace—see table below. So why wait? Send TODAY—NOW!

When comparing prices elsewhere, please remember that our low price is positively the LOWEST at which a QUALITY furnace can be sold. Others may offer prices close to ours—but they cannot offer Volcano quality at our price.

We guarantee all castings to be fire-resistant and long-lived. Although the fire pot, combustion chamber, and radiator are not as heavy as those in our Hercules, they are of a good grade, and will give good service. The fire pot and combustion chamber are ribbed for extra strength.

Volcano Warm Air Pipe Furnace

If you live in a very cold climate, or have exceptionally large rooms, or your house is unusually hard to heat, we recommend ordering a furnace one size larger than the one indicated below.

If you prefer, we will estimate the size furnace required for your particular building. This service is free. Write and enclose sketch stating whether you wish an estimate on furnace only or on a complete warm air system. Prices below include furnace complete with galvanized top and casing.

Top bonnet of furnace is shipped without holes for the warm air pipes. These can be easily cut as required when furnace is being installed. Warm air pipe, cold air pipe, registers, smoke pipe, smoke damper, etc., are not included.

42KM8320¼—State size (Fire Pot diameter) wanted.

For Small Homes
VOLCANO CAST IRON PIPELESS FURNACE

Terms As Low As $5 DOWN

$57.50 CASH And Up

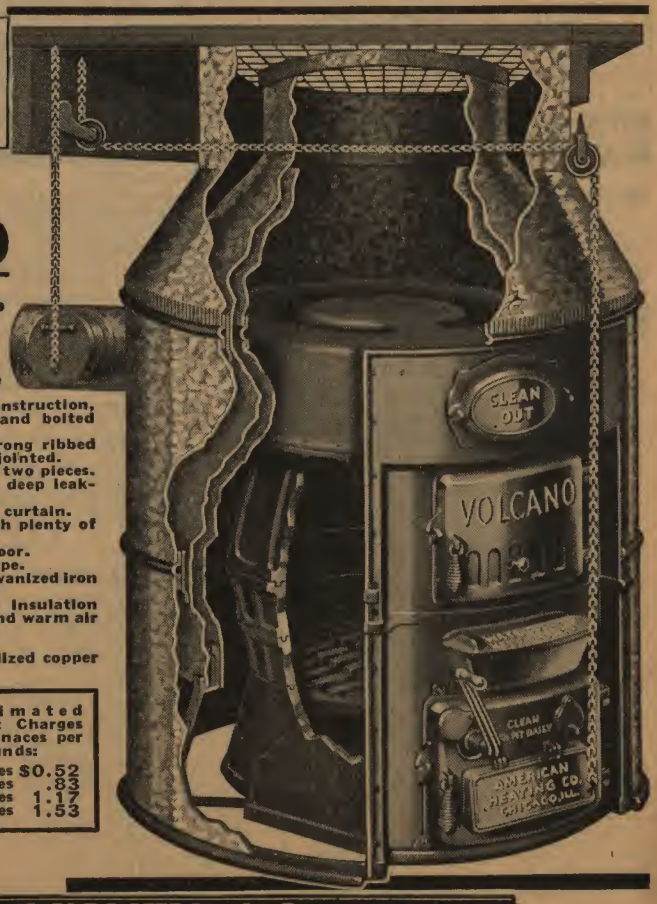
This furnace is primarily for small homes. In small buildings—up to 7 rooms—this type of furnace is a wonderful heater. Those who have tried the pipeless type of furnace say that it keeps the entire house warm in the coldest weather—at just about the same fuel cost of a single room heater. We have thousands of letters from satisfied customers who say that their pipeless furnaces take the place of two to four stoves at no extra fuel cost.

The Volcano Pipeless furnace is a wonderful value for the money. Although our Hercules, described on the opposite page is a heavier, better grade furnace, the Volcano is well worth the low price we ask.

The Volcano is built right! . . . According to the very best heating standards. It is made of good grade iron castings. All essential castings are of the right weight for long service. All joints are deep lapped and smoke, dust and gas-tight. A large radiator, combustion chamber and fire pot produce ample heat radiation for the coldest weather. The register is handsomely finished in oxidized copper. Burns hard and soft coal, coke or wood.

A small down payment will bring you this furnace. Then pay only a few dollars a month.

When ordering on Easy Payments, use Time Payment Order Blank in back of catalog.



- —Good grade gray iron castings.
- —Joints are deep flanged and cement sealed. Gas, smoke and dustproof.
- —Radiator is of two-piece construction, tightly fitted, cemented and bolted together.
- —Combustion Dome is of strong ribbed design. Sturdy and deep jointed.
- —Firepot is ribbed and cast in two pieces. Strong and durable with deep leak-proof cup joints.
- —Large feed door with smoke curtain.
- —Ash pit is extra roomy—with plenty of air space below grate.
- —Hot Blast opening in feed door.
- —Grates are triangular bar type.
- —Outer casing of 26-gauge galvanized iron—Draw band connected.
- —Circulating 1-in. air space insulation between cold air intake and warm air chamber.
- —Large capacity water pan.
- —Cast iron register with oxidized copper finish.

SIZE TO ORDER

Table below shows the size house (number of rooms) each size furnace will comfortably heat. If you live in a very cold climate, or if you have exceptionally large rooms, or your house is unusually hard to heat, we recommend ordering a furnace one size larger.

Prices are for furnace complete, with floor register, casing, shaker handle, poker, check draft, damper regulating dial with chain and pulleys, and cement. Furnace is adapted for basements 6 to 8 feet in height. Extensions for higher basements furnished at extra charge.

Shipped Not Prepaid.

$52.50 CASH And Up

- ★ Made of extra heavy, smooth gray iron castings throughout.
- ★ All seams and joints are tightly fitted and firmly cemented. Gas, smoke and dust-proof.
- ★ Massive one-piece radiator. Larger and heavier than most others—adding greatly to fuel economy.
- ★ Extra deep two-piece fire pot permits expansion and contraction. Considerably heavier than fire pot of most other furnaces.
- ★ Feed door is 11x13 inches, an unusually large size.
- ★ Hot Blast unit preheats air and consumes smoke and gases.
- ★ Radiator, feed door and ash pit sections extend through the front.
- ★ Heavy, durable combustion dome.
- ★ Improved Duplex grate with roller bearing outer ring and center dump for clinkers.
- ★ Double 26-gauge galvanized casings with one-inch air space insulation.
- ★ Bonnet of 26-gauge galvanized iron, double seamed and riveted.
- ★ Deep water pan supplies moisture needed for comfort and health.
- ★ One-piece ashpit with large removal door; Dustproof.
- ★ Openings for hot water coil.

HERCULES Warm Air Pipe Furnace

Compare the above features with those of any other furnace made. Look inside the casing and see just why this is one of America's most enduring and most economical warm air furnaces.

The extra heavy radiator, combustion chamber and fire-pot castings are distinctive Hercules features. Heavy doors, fronts, bottoms and ash pits build up an impressive total weight—but they just don't mean anything. Sears offer extra weight **where extra weight counts.** Our extra heavy radiator, combustion chamber and fire-pot castings add years to the life of your Hercules furnace.

Better still, the Hercules has an extra large one-piece cast iron radiator. Being much larger and heavier than most others, it adds greatly to fuel economy. It extends well out into the warm air chamber—providing greater radiation surface.

The fire pot is extra deep. Being cast in **two pieces,** it provides for expansion and contraction due to temperature changes.

Table below shows the size house (number of rooms) each size furnace will comfortably heat. If you have exceptionally large rooms, or your house is unusually hard to heat, order a furnace one size larger.

Prices include furnace complete with galvanized top and casing. Top bonnet of furnace is shipped without holes for the warm air pipes as these can be easily cut as required when furnace is being installed.

Shipped Not Prepaid. Estimated Freight Charges on Furnaces per 100 pounds: 150 miles, 53c; 300 miles, 83c; 500 miles, $1.20.

SAVE COAL

WHY waste fuel and labor on one, two or three fires when only ONE, the right one, will heat your home better for less money? One furnace fire is much cheaper than two or three small fires—and is surely much easier to handle. So why not decide TODAY to have a really WARM house at less labor and expense? NOW is the time to buy while prices are at rock bottom. Prices may never be so low again.

QUALITY FACTS

- —Best quality heavy cast iron.
- —Deep, heavily flanged joints.
- —Extra large one-piece radiator. Larger and heavier than most others.
- —Deep two-piece fire pot. Much larger and heavier than most others.
- —Extra large feed door has smoke curtain.
- —Hot Blast smoke consumer.
- —Heavy, durable feed section.
- —Improved Duplex grates.
- —Double 26-gauge galvanized casings with one-inch air space insulation.
- —Large water pan moistens air.
- —Openings for hot water coil.

Prices are for furnace complete, with floor register, casing, shaker handle, poker, check draft, damper regulating dial with chain and pulleys, and cement. Furnace is adapted for basements 6 to 8 feet in height. Extensions for higher basements furnished at extra charge.

Built for HARD SERVICE!

- **Heavy Gauge red and black enameled steel jacket, lined with asbestos board insulation.**
- **Boiler assembled in vertical sections, interconnected with tapered push nipples.**
- **Large fire pot; improved hot blast smoke consumer.**
- **Generous size ashpit; heavy rocking grates, triangular clinker-breaking type; draft door on side.**
- **Boiler Height, 58 inches overall.**
- **Door connecting surfaces ground smooth for dustproof construction.**

$54.50 And Up

Hercules Square Boilers represent a mighty saving at our low prices. These boilers with their handsome red and black enameled jackets are popular everywhere. Efficiency and beauty are combined in a low priced quality boiler.

Furnished With or Without the Jacket
The red enameled steel jacket serves a practical purpose—its thick asbestos lining blankets in the heat. However, the boiler may be purchased with or without jacket. Burns hard or soft coal, coke or wood; can be converted into oil or gas burning unit. Boilers are all 58 inches high overall, and take 9-inch smoke pipe. Firing tools include the hoe, poker and flue brush.

IMPORTANT! To find what size of boiler to order, you need to know only the number of square feet of radiation capacity of your radiators. For example, if your radiators total 480 square feet of radiation, you should use a boiler whose actual load capacity is 480 square feet. However, if in doubt as to what size to order, send for our FREE estimate Blank MN6095K. Our engineers will be glad to advise you without charge. **For Easy Payments, see page 842. Prices subject to market changes.**

SAVES FUEL!

COST ½ of the PRICES ELSEWHERE

$22.50 And Up CASH *Postpaid*

HERCULES Heat Regulator

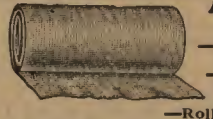
—Operates draft, damper and check.
—Regulates furnace or boiler fire properly.
—Maintains uniform temperature in your home.
—Prevents overheating; saves many trips to the basement.

Saves fuel, lessens labor and promotes health and comfort—automatically! **Opens dampers in the morning so you can get up in a warm house.** Cuts fuel costs to a minimum and aids in the prevention of colds. Once installed, you'd never be without it. HERCULES HEAT REGULATOR is yours for as little as $22.50—the lowest price in history! It's absolutely **dependable**—will do its work month in and month out, year after year—Sears guarantee it!

The Regulator consists of an attractively designed thermostat, containing a metal coil that is extremely sensitive to temperature variations, yet **absolutely positive in operation.** It connects to a motor in the basement which operates the furnace drafts. **Easily installed** without special tools. Our simple instructions tell you how.

42K8875¼—Complete outfit includes room Thermostat in brushed Brass Case, with 24-hour clock and thermometer; gravity type motor, chain and wire for damper attachments. Full instruction furnished. Motor is wound by pulling up, once each day, the chain to which the weight is attached. Motor gives 18 to 20 actions with one winding. Batteries included.
Cash Price. **Postpaid** **$22.50**

42K8876¼—**Electric Motor, requires no winding.** Complete outfit, for use with 110–120-volt, 60-cycle A.C. house lighting circuit. Includes 24-hour clock thermostat same as on 42K8875¼ above, electric motor, chains, fittings and complete instructions. Uses current only when opening and closing drafts.
Cash Price. **Postpaid** **$27.95**
For Easy Payments, see page 842.



Asbestos Paper

—Fireproof material.
—Natural mineral asbestos fibre.
—Rolls 36 in. wide.

Easily cut with common scissors. Applied with starch paste, or special Asbestos Paste listed below.

Used for covering furnace pipes, walls, partitions, and ceilings exposed to heat, and as a lining for floors and ceilings.

42KC8987—10-yard roll. Shpg. wt., 10 lbs. **Not Prepaid** **72c**

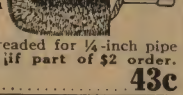
42KM8988—50-yard roll. Shpg. wt., 50 lbs. **Not Prepaid.** **$3.39**

Cold Water Paste

For pasting asbestos paper to tin furnace pipes. **Not Prepaid.**

42KC8989—Per 2 lb. 8 oz. package. (Not Illustrated) **33c**

Wire Flue Brush



—Good cleaner for cast iron boilers.

Size, 1¾x4½ x5½ inches. Threaded for ¼-inch pipe handle. **Postpaid if part of $2 order.** Shpg. wt., 1 lb.

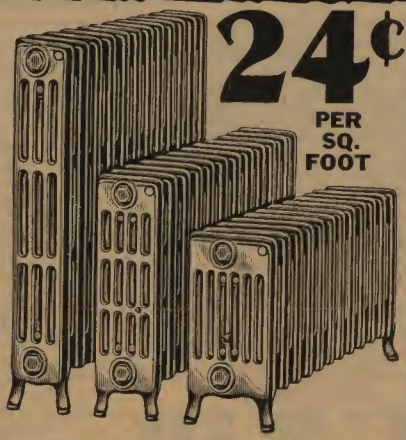
DURABLE, ARTISTIC RADIATORS



24¢ PER SQ. FOOT

- **High grade cast iron carefully machined and tested.**
- **Shipped completely assembled.**
- **Designed and built according to most approved engineering practice.**

To determine the total length of a radiator, figure 2½ inches per section. Table below shows the square feet of heating surface per section. To determine cost of complete radiator, first multiply the square feet per section by number of sections, to get total square feet; then multiply this by the price per square foot. If not sure what size radiators you need, write us enclosing sketch of rooms to be heated, giving sizes, etc. **When ordering state number of sections and height wanted.**

Shipped Not Prepaid	Height of Radiator	Square Feet Per Section	Per Sq. Ft.

Why are SEROCO Paints as Good or Better than the Most Costly Paints Made?

1-Made According to PROVEN Formulas

2-Made of FINEST Materials Available

3-Made in Our Own 5 Big Paint Factories

4-Made by EXPERT and EXPERIENCED Organizations

What assurance of quality have you when you buy paints and paint products from Sears or from any other manufacturer?

It is impossible to judge quality of paints by inspection, even expert inspection. That is why unscrupulous manufacturers have often taken advantage of the public. This condition is recognized by no less than sixteen states which have in force statutes regulating the sale of paints proper.

Sears Print Formula on the Package

We are proud to print the formulas for our paints on every package, whether or not sold in the state requiring this by law. We challenge comparison of any and all of our formulas by any competent and unbiased party, whether manufacturer, chemist or painting contractor, with the formulas used for corresponding products by any manufacturer in the country.

Proper formulation requires a thorough scientific knowledge of, and practical experience in the chemistry of hundreds of substances that Nature, aided by the art of man, has made available for our use.

The organizations in our five large factories possess the scientific knowledge and skill required for this highly technical industry. Moreover, we have constantly at work on the improvement of our present products, a Technical Committee of four men, each one of whom is a graduate in chemistry of a university of high standing.

The Importance of Raw Materials

The materials used as ingredients must themselves conform to high standards of chemical purity and physical fitness. Specifications and methods of testing for such materials are issued from time to time by various Bureaus of the U. S. Government and by scientific bodies such as the American Society of Testing Materials, American Chemical Society and others, all of which are available to us as well as to other manufacturers.

We purchase our raw materials only from firms of high standing and established reputation, and insist upon their conforming to high standards of quality, representative of the best practice in the industry.

Made in Sears Own Modern Factories

The best paints must be manufactured in properly designed factories with modern equipment specially adapted for the particular conditions surrounding each product, by a skilled and experienced organization. Many years ago we had our paints manufactured for us by an outside organization. Notwithstanding every effort we made through rigid specifications on materials and methods, and constant inspection of finished products, we were unable to control quality to our satisfaction. We finally concluded that we had to have our own factories in order to obtain the complete control we believed necessary.

Today our paints are made in our five modern paint and varnish factories, equipped with the most modern and efficient equipment. They are manned by skilled and experienced manufacturing personnel, directed and controlled by executive and technical staffs of unquestionable competence. The entire organization is imbued with a grim determination to make our paints the best paints, regardless of price, that are manufactured today.

Reasons Why Sears Paints Save You Money

FIRST—Through the ownership of our own factories, we eliminate the necessity for paying the factory profit we would otherwise have to pay.

SECOND—Our component materials are purchased in lots ranging from carloads to twenty carloads and this purchasing power insures us the lowest possible prices.

THIRD—Our transportation costs on incoming raw materials are reduced to the minimum due to carload rates. Our five factories are strategically situated and ship finished goods direct to our mail order distribution points in carload lots, again insuring minimum freight charges.

FOURTH—We eliminate the extra profits, handling, storage and trucking charges, and selling expenses necessarily involved in the jobber-dealer method of distribution.

The Result-

is that Sears method of distribution is the most economical. When you buy paints here, you receive the HIGHEST QUALITY POSSIBLE TO PRODUCE at the LOWEST PRICES POSSIBLE TO SELL THEM.

BARN PAINT

...It's Ground Like Good House Paint

75c PER GAL. In 50-Gal. Steel Bbls.
Except 30KM820

- ★ Spreads evenly, brushes smoothly, easily.
- ★ Dries with high gloss.
- ★ Hides old surface perfectly.
- ★ One gallon covers 300 sq. ft., average surface, two coats.
- ★ Costs no more than "Ordinary Mixed" Barn Paint.
- ★ Wears better; looks better.

Well painted farm buildings last longer, need fewer repairs, are attractive appearing and have greater value than shabby, run down property.

Seroco Barn Paint is a high grade product throughout. It costs no more "Ground Like House Paint," often less, than "Ordinary Mixed" Barn Paint. We sell it under our economical "Factory to You" plan, direct from one of our big modern paint factories, all equipped to make high grade paint in big quantities at a most economical cost.

You save the most when you order paint shipped by freight. It costs least when you buy a 30 or 50-gallon steel barrel, with its large top opening permitting easy stirring. Select from four popular Barn Paint colors, listed below and shown in colors on page 866. You will need Linseed Oil and Turpentine! See the table at right.

How Much to Order

To obtain the square feet of surface, add two feet to the height to the eaves and multiply by the distance around the barn. Add to this the width of the barn multiplied by height of the gable above the corner posts. This total divided by 300 (200 for new surfaces, three coats) will give the number of gallons of paint needed for two coats. Order 1 gallon of trim to 10 gallons of body color.

30KM830—Yellow. **30KM850**—Maroon. **30KM800**—Red.

Our Iron Paint Paddle for mixing paints is included with all 5-gallon cans of Barn Paint.

"Tinners' Special" Roof and Gutter Paint

- —A lead Chromate Paint.
- —Superior to Red Lead as a rust preventative.
- —A priming or a finishing coat for any metal surface.

Use it to prevent leaks in metal roofs, gutters and down spouts. Widely used for coating under side of auto fenders to prevent rusting; excellent for coating farm implements, tractors, running gear of vehicles, etc.

30KC1908—(Red Lead Color.)

Wagon and Implement Paint

Refinishes Wagons, Trucks, Tractors. Farm Implements Last and Look Like New

- —Glossy, extra durable varnish-paint.
- —Make farm implements appear like new.
- —Prevent premature checking, warping and rotting of wood parts.
- —One gallon often refinishes every implement on the farm.

One good coat often saves the need of later, expensive repairs. Paint your milk cans to identify them easily. **Postpaid when included in $2.00 order.**

Pure Linseed Oil and Turpentine

100% Pure

Rapidly fluctuating markets make any attempt to price these necessities too far in advance decidedly unfair to our customers. We believe, however, that the following service will add greatly to your convenience and saving.

During the Fall and Winter Season 1932 our price for 100% Pure Linseed Oil or Turpentine will not be more than 90c per gallon. Include this with your order and if at the time it is received the prevailing market price is lower the difference will be promptly returned to you. (Under this plan we reserve the right to limit our sales to our regular paint customers.)

Order as Follows:

30KC3460—Pure Gum Spirits of Turpentine.
30KC3464—Pure Raw Linseed Oil.
30KC3465—Pure Boiled Linseed Oil.
Not Prepaid. Shpg. wt., 9 lbs. per gal.

What It's Made of!

—New White Formula, Better Paint.
—Lasts longer, wears better.
—Covers more surface per gallon.
—Even more FAST to COLOR: Improved GLOSS.

We're proud of MASTER-MIXED House Paint! Introduced only a few years ago, it has won nation-wide approval among paint-wise home owners and contractors. Our new formula will strengthen its position of high leadership among the best known and highest grade paints. Read The Story of Seroco Paint, page 861, for convincing proof of its excellence. We intend to hold our leading position in the paint industry by continuing to offer the best paint and the best values.

Our Guarantee

We Guarantee MASTER-MIXED House Paint to be equal to the finest paint made, regardless of name, make or price.
We Guarantee that it will cover as much surface, last as long, look as beautiful, and be as easy to apply as any paint on the market.
We Guarantee our prices on MASTER-MIXED House Paint to be lower than any other paint of equally high quality.
We intend this to be the strongest paint guarantee ever written.

SEARS, ROEBUCK AND CO.
The World's Largest Store

50-GAL. STEEL BBLS.

$2.23 PER GALLON (WHITE OR COLORS)

MASTER-MIXED saved the owner of this home $12.00 over the price asked elsewhere for paint of equal quality and gave him a most attractively finished job.

By painting with MASTER-MIXED instead of a higher priced paint of the same high quality, the owner of the home shown saved more than $10.00.

QUALITY - SPEED - SERVICE

FOUR-HOUR ENAMEL

for the Finest

WOODWORK - WALLS - FURNITURE

- Porcelain gloss washable finish, adaptable to new or old surfaces
- Easy to apply, brush, "level" and is self smoothing
- Hides old finish perfectly and brings renewed charm
- One gallon covers 250 square feet with two coats
- Choice of 16 beautiful, fresh colors shown in chart below

The quick, modern, economical way of refinishing and bringing renewed beauty to the home. Has all the advantages of regulation, slower-drying enamels—yet you don't need to upset the whole household when you redecorate. It has no offensive odor, dries dust-free and dry-to-the-touch in one hour—hardens in four, ready for use or to recoat. (*Drying speed slightly retarded by cold, dampness or poor ventilation.*) Anyone can apply it and obtain perfect results. We recommend brush 30K3044, Page 875 for applying it.

LUMBER·SHINGLES·FLOORING

LUMBER

Save here on Lumber, Lath and Shingles. We carry complete stocks—millions of feet of Siding, Dimension, Shiplap, Dressed and Matched, Finished, Lath, Shingles, Moldings, etc., ready for immediate shipment. Whether you buy car load or small quantities, we can save you money.

Highest Quality Material

Our stocks are always fresh and clean. We insist on standard grades—adjusted upward to meet your most exacting requirements. Our liberal guarantee protects your investment.

Low Prices on Quality Lumber

In dealing with Sears you buy direct at a big saving. Our prices are the lowest that you can get anywhere for materials of the same high quality. Our guarantee assures you absolute satisfaction.

Prices Furnished Without Obligation

Send us your list of Lumber needs. We will quote you low-delivered-to-your-station prices. Any of your questions will be promptly answered by our experts at no cost to you.

Hardwood Flooring at a Big Savings

Hardwood floors beautify, last longer and cost less now. Never, in years, have prices on Oak or Maple Hardwood Flooring been so low.

Nothing attracts attention so quickly within your home as the floors. There is nothing you can add to your home (new or old) that will do more to increase its beauty and value. The perfect floor is Oak. Universally recognized as a better floor because of its beauty, and inexpensive because of its superior wearing qualities. Cleans easier, is susceptible to fine finish and increases home valuation.

Let us quote you low rock bottom prices on your needs. No obligation on your part. We have in stock, ready for immediate shipment, all sizes and grades of Oak or Maple Flooring.

ESTIMATED FREIGHT CHARGES PER 100 POUNDS

Miles	150	300	500	750
DOORS AND SASH (Glazed)	52c	83c	$1.17	$1.53
Doors (Unglazed and Panel)	40c	65c	.93	1.23
Door Frames	40c	65c	.93	1.23

If your freight shipment totals less than 100 pounds, you may include additional merchandise to make a 100-pound order—AT NO EXTRA FREIGHT CHARGE.

Freight Orders Save You Most

Shipping charges on your orders are very little when your merchandise is sent by freight. Today, freight trains run on much faster schedules than formerly. The handling of freight shipments has been speeded up "all along the line," and they are not subject to troublesome delays.

One hundred pounds or more is the most economical freight shipment, because less than that weight takes the 100-pound rate, regardless.

If your order does not total 100 pounds, we suggest that you anticipate your needs and buy ahead. Or join with a neighbor and make up the necessary weight. Many thousands of dollars have been saved by SEARS customers sending us "club orders" in the past. If you include postpaid items in your freight shipment we will make an allowance on your bill for a proportionate amount of the shipping charges, an extra saving to you.

We ship much of our heavier merchandise direct from warehouses and factories to save you transportation costs; and when that is the case, we so state in the description. These articles must be shipped separately and cannot be included with goods shipped from our store.

Make your orders large enough to ship by freight whenever possible, as it is the most economical way for you to secure your merchandise.

We Do Not Pay Transportation Charges on Freight or Express Shipments

If There Is No Freight Agent at your shipping point, include with your order sufficient money in addition to the price of the merchandise to cover the freight charges. If there is an agent, you pay the freight charges when the shipment reaches you.

How to Tell What Freight Charges Will Be: You know about how far you live from Minneapolis. If you do not know, refer to map on Page 977 for approximate distance. Then by referring to the chart shown here, you can easily estimate the freight charges. Shipping weights are given in descriptions in this catalog.

For Example: Suppose you live about 150 miles from Minneapolis and order a bed weighing 125 pounds. The list below shows the freight charges for 100 pounds on beds (or bedsteads) to be $1.24. Multiply the shipping weight, 125 pounds (1¼ times the hundred pound rate), by $1.24 and your answer is $1.55, the approximate total freight charge.

We will tell you exactly what the freight charges will be on any shipment, whether from Minneapolis or one of our factories, if you will write to us. Or your station agent will gladly tell you.

We pack all merchandise to obtain the lowest freight charge.

Estimated Total Freight Charges per 100 Pounds or Less From Minneapolis

EXPRESS **If at any time you require rapid service on unmailable merchandise and want your order shipped by express, figure the approximate weight of the shipment and ask an express agent to tell you how much it will cost.**

We Pay the Postage on Orders of $2 or More

(If you order one article priced at $2 or more, or several articles totalling $2 or more, *we pay all postage*, except on "Not Prepaid" items.)

On Orders of Less Than $2

Be sure to include additional money in your remittance to pay the postage, as charges for parcel post shipments must be paid in advance. For your greater convenience, the amount of postage is given in many descriptions of articles priced at less than $2. On others we tell you the shipping weight, and on these the postage can easily and quickly be figured from the chart below.

Remember, we always return every penny you send over actual postage required, and if the postage is more than the amount we quote, we stand the difference.

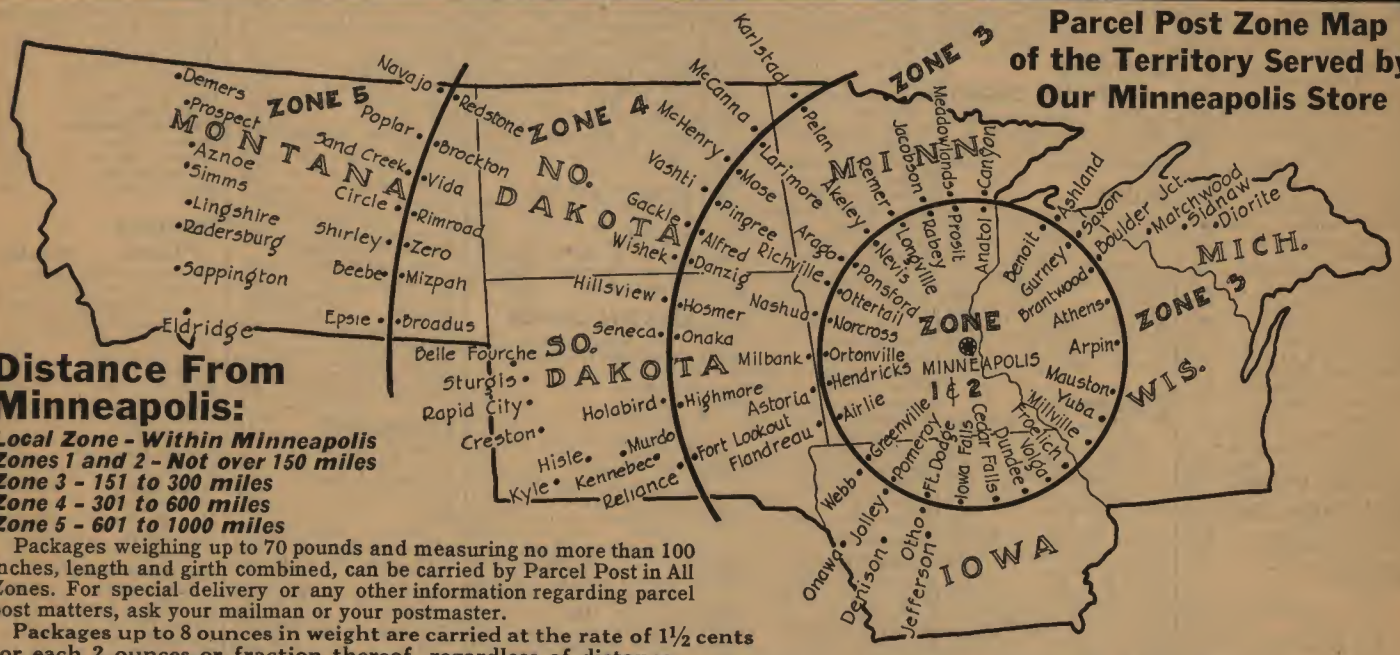
"Not Prepaid" Articles

There are many articles which, because of their nature are usually shipped with other goods by freight and for that reason are listed "Not Prepaid." Should you want any of these items shipped by parcel post, it is necessary that you include postage in your remittance, regardless of the total value of your order.

When Postpaid Goods are Shipped by Freight

When items on which we prepay the postage are included in a freight shipment, we will make an allowance on your bill for a proportionate amount of the shipping charges.

Parcel Post Zone Map of the Territory Served by Our Minneapolis Store



Distance From Minneapolis:

Local Zone - Within Minneapolis
Zones 1 and 2 - Not over 150 miles
Zone 3 - 151 to 300 miles
Zone 4 - 301 to 600 miles
Zone 5 - 601 to 1000 miles

Packages weighing up to 70 pounds and measuring no more than 100 inches, length and girth combined, can be carried by Parcel Post in All Zones. For special delivery or any other information regarding parcel post matters, ask your mailman or your postmaster.

Packages up to 8 ounces in weight are carried at the rate of 1½ cents for each 2 ounces or fraction thereof, regardless of distance.

HOW TO FIGURE PARCEL POST CHARGES

If you live in LOCAL ZONE	*If you live in ZONE 1 or 2*	*If you live in ZONE 3*	*If you live in ZONE 4*	*If you live in ZONE 5*
Over 8 oz., up to the First Pound, Postage is..... **7¢**	Over 8 oz., up to the First Pound, Postage is..... **8¢**	Over 8 oz. up to the First Pound, Postage is..... **9¢**	Over 8 oz. up to the First Pound, Postage is..... **10¢**	Over 8 oz. up to the First Pound, Postage is..... **11¢**
For each additional 2 Pounds or Fraction, add **1¢**	For each additional Pound or Part of Pound, add **1 1/10¢**	For each additional Pound or Part of Pound, add **2¢**	For each additional Pound or Part of Pound, add **3½¢**	For each additional Pound or Part of Pound add **5 3/10¢**

FOR EXAMPLE, if you live in Zone 2 and order merchandise weighing 11 pounds 12 ounces, the parcel post charge is 8 cents for the first pound; the remaining 10 pounds and 12 ounces (same as 11 pounds) at 1 1/10 cents is 12 1/10 cents (or 13 cents, as a fraction of a cent in the total postage will be figured as a full cent); total postage, 21 cents.

The above rates become effective October 1, 1932. Until that date, the following rates will be in effect:

	Zones 1 and 2	*Zone 3*	*Zone 4*	*Zone 5*
Postage for first pound or fraction	*7c*	*8c*	*8c*	*9c*
For each additional pound or fraction, add	*1c*	*2c*	*4c*	*6c*

If Necessary to Return Goods, We Can Give You Better Service if You Follow These Simple Instructions

Please Give Reason

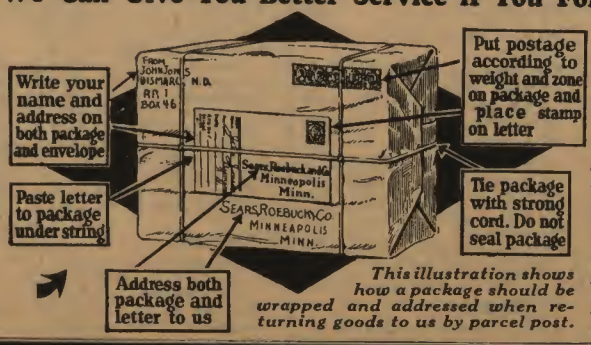
We are always anxious to improve our merchandise and our service. If you ever have occasion to return merchandise, we will appreciate your telling us frankly in just what way it did not please you.

If You Live on a Rural Route

and wish to return goods, you are entitled to deduct 2 cents from the postage on each package you mail if you live within the local zone, and 3 cents on all other zones (effective October 1, 1932). It is necessary, however, to write on your package "Mailed on Rural Route" in order to make this saving.

By Parcel Post

Follow instructions given in illustration at right.



This illustration shows how a package should be wrapped and addressed when returning goods to us by parcel post.

Do Not Enclose Your Letter INSIDE the Package, as This Is Contrary to Postal Laws.

By Freight or Express

Before returning goods shipped by freight or express, please write us, so we can tell you where and how we want goods shipped. See that merchandise is packed securely and addressed to us. Your full name and address should be placed on the inside or outside of the package with the word "FROM" in front of your name. Your agent will give you a receipt and this should be mailed to us at once with your letter explaining your reason for returning the merchandise. If your postoffice is different than the town from which the goods are returned, be sure to tell us.

We Guarantee Safe Delivery of All Our Shipments

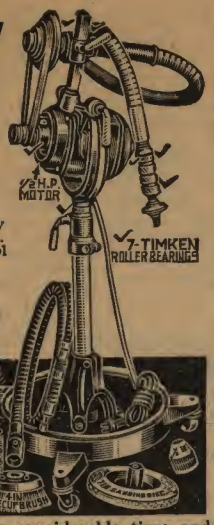
"DRIVER" Heavy Duty Flexible Shaft

$69.50 Cash Price Less Accessories



Includes Stand, ½-H.P. Motor, heavy duty Flexible Shaft and 52-Inch High Speed Shaft. For complete description send for Power Tool Catalog K583K.

On Easy Payments $10.50 PER MONTH

—Portable power to increase speed and efficiency in garages and shops.
—Saves considerable time and labor for every type of industry.
—New uses for flexible shafts are constantly being developed.

Note These Specifications

Motor. ½-H.P. Repulsion type. 3600 R.P.M. for 110 or 220-volt, 60-cycle A.C. **With TIMKEN Bearings.** Tilts every direction.

Two flexible shafts are provided. Extra heavy shaft with speeds from 750 to 4000 R.P.M., for continuous grinding, sanding, drilling, buffing, auto waxing, and polishing. Has rubber covered armored casing with ⅜-in. core. Length, 5 ft. **TIMKEN bearing** hand piece. Also a light ball bearing shaft for fine precision work on dies, jigs and metal patterns where exceptionally high speed is essential. Has **ball bearing** hand piece with collet chuck. Takes rotary files, emery pencils and similar attachments. 52 in. long, 3/16-in. core. **Countershaft** ball bearing, 8 speeds, from 750 to 10,000 R.P.M. Moulded rubber "V" belt. **Telescoping stand** permits raising of shaft 15 in. **Shipped freight or express, Not Prepaid, from factory in New Jersey.**

99KM8401¼—Flexible shaft, complete with motor and 2 shafts but without accessories. Shpg. wt., 115 lbs. Cash price..... **$69.50**
On Easy Payments, $14.00 down and $10.50 per month..... **76.45**

99KM8400½—Flexible shaft, complete with motor, 2 shafts and all accessories as shown. Shpg. wt., 132 lbs. Cash price..... **$82.75**
On Easy Payments, $16.50 down and $12.50 a month..... **91.00**

For Easy Payments Use Time Payment Blank in back of catalog.

99K8402—DRIVER Angle Head. For any DRIVER flexible shaft except high speed type. Curved tooth miter gears, no chatter, makes work easy. **Postpaid..... $10.50**

High Speed Shaft Accessories

99K8403 8 Routing Cutters. Tool steel. For pattern makers, wood carvers. **Postpaid... $4.40**

99K8404 7 Carborundum Cutter Points. For metal pattern work, etc. **Postpaid... $5.50**

99K8405 8 Wood Carvers. Tool steel. Arbor and depth washers. **Postpaid..... $4.40**

DRIVER Ball Bearing Flexible Shaft Set

$19.50 Without Motor *Prepaid*

—Will do most any kind of Sanding, Grinding, Polishing, Waxing, Drilling, etc. **Will also remove paint.**

High speed ball bearings. Motor table swivels on base. Includes 5½ ft. ball bearing flexible shaft, sanding drum and 6-in. sanding disc with extra abrasives, tube of special graphite lubricant, sheepskin polishing pad, 6-in. cloth buffer, 1 pint can cement for attaching discs, waxing and polishing brush, drill chuck, adapters, carbon removing brush, 4-in. coarse and fine wire wheels and 4-inch grinding wheel with guard. **Priced extremely low.**

99K502—Outfit as above, without motor. **Prepaid..... $19.50**
99K504—Complete outfit with COMMANDER ¼-H.P. 60-cycle, 110 to 120-volt motor, 1750 R.P.M. **Prepaid..... $29.90**

Ball Bearing Flexible Shaft Set

—For drilling, grinding or polishing.
—Two or more shafts can be coupled together for longer length.

Fits any ½-in. shaft. Includes 36-in. flexible shaft, drum sander, 2 abrasive belts, 6-in. flexible sanding disc, 6 abrasive discs, 4-in. grinding wheel, ¼-in. drill chuck, chuck adapter, tube lubricant.

9K5328—Complete outfit. **Postpaid..... $7.35**

9K5334—Flexible shaft only with hand piece, ¼-in. chuck, adapter and new type motor coupling. **Postpaid..... $4.50**

Die Cast White Metal Pulleys

Pulleys Postpaid If Part of $2.00 Order

High Quality Fiber Pulleys

Heavy pressed fiber flat face pulleys that will not wear smooth and slip. Steel core.

¼ H. P. 3 YEAR GUARANTEE

Challenge Motors

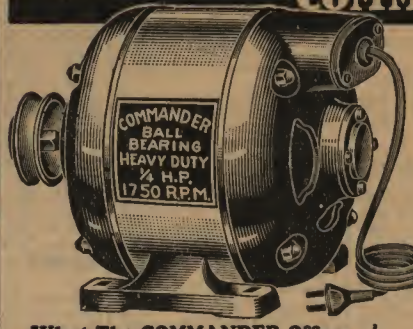
- **Especially adapted for washing machines and light shop tools.**
- **Windings are absolutely moisture-proof.**
- **¼ horse power.**

$7.45 Postpaid

Accessible terminal box makes connecting and reversing easy —**bronze bearings,** wool yarn oiling and long life internal switch. Has base holes measuring 3¾ in. across, and 5 in. from brace to brace. ½-in. shaft and detachable base. These ¼-H.P. motors are substantially built, and well designed. They are powerful, splash-proof, and quiet-running. Speed, 1750 R.P.M.

20K2226¼—110 to 120-volt, 60-cycle A.C. **Postpaid..... $7.45**
20K2227¼—Same as above but with cord, plug and V-type pulley. **Postpaid..... 7.95**

COMMANDER *Ball Bearing*



$10.60 And Up Postpaid

The grease packed NEW DEPARTURE Ball Bearings insure trouble free continuous service.

Guaranteed 5 Years

- **For all ordinary purposes such as running shop tools, feed mills, sign flashes, small air compressors, small power bench saws, etc.**
- **Windings guaranteed moisture proof.**
- **¼ horse power.**
- **Runs on NEW DEPARTURE Ball Bearings.**

What The COMMANDER Offers

1. Internal starting switch, withstands over 500,000 starts. Guaranteed a lifetime.
2. Forced air cooling.
3. Splash proof end plates.
4. Accessible terminal and reversing box.
5. Slotted base for belt tightening.
6. Equipped with NEW DEPARTURE Ball Bearings. Nothing rolls like a ball.
7. Guaranteed for 5 years, but built to last longer.

Very economical to run. Tests show that the COMMANDER Ball Bearing motor consumes 10% less current than ordinary electric motors. Base holes measure 3¾ in. across, and 5 in. from brace to brace. ½-in. pulley shaft. Speed, 1750 R.P.M. Ten feet of heavy rubber covered cord, unbreakable plug and 2-in. V-type pulley included.

Cat. No.	H.P.	Voltage	Current	Cycles	Postpaid

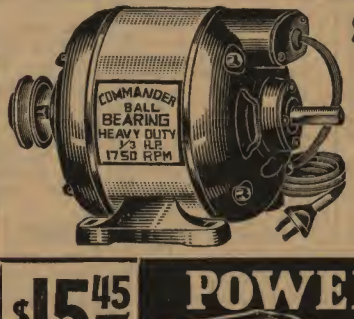
20K2307¼	¼	32	D.C.	..	16.35
20K2308¼	¼	110	D.C.	..	16.35

20K2200¼—10 feet rubber covered motor cord and plug as illustrated on motor above. Shpg. wt., 2 lbs. **Postpaid if part of $2.00 order..... 48c**



$11.95 *Postpaid*

⅓ H. P. COMMANDER Heavy Duty Motor
Guaranteed 5 Years

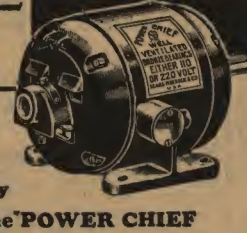
Same high quality as above, but larger and has double drive shaft.

—Very popular for running shop equipment such as drill presses, grinders, lathes, planes and saws.
—Windings guaranteed moisture proof.
—Has NEW DEPARTURE Ball Bearings and other refinements characteristic of COMMANDER motors.

Quiet and powerful. Complete with 10-ft. cord, plug and V-type pulley. 110 to 120-volt, 60-cycle A.C.
20K2228¼—Postpaid..... **$11.95**

POWER CHIEF

$15.45 CASH ¼-H.P.



¼ and ⅓-H. P. Sold for Cash Only

$39.00 CASH 1-H.P.

$6.50 DOWN 1-H. P.

What the POWER CHIEF Motor Offers

1. Semi-enclosed, well cooled protective design.
2. Interchangeable for either 110 or 220 volts. Direction of rotation also easily changed.
3. Oversize phosphor-bronze bearings.
4. Wool yarn filtered oiling system.
5. Quiet running—due to perfect balance and rigid mechanical construction.
6. High starting torque; low start-current.
7. Causes no radio interference.

Repulsion—Induction Type *For Heavy Starting*

—Excellent for pumps, refrigerating machines, heavy air compressors, large cream separators, and devices offering heavy starting load.
—Windings carefully insulated and baked.
—Will start 300% over their full rated horsepower.
—Meets all A.I.E.E., N.E.M.A., and Central Station requirements.
—Guaranteed to give complete satisfaction.

POWER CHIEF motors will not only carry their full rated load, but momentarily will also withstand enormous overloads. We guarantee that each POWER CHIEF will develop their rated horsepower and torque and will not exceed 40 degrees centigrade temperature rise.

20% SAVINGS ALLSTATE AUTOMOBILE INSURANCE 100% PROTECTION

Lower Rates

Rates twenty percent lower than those established by other old line stock Insurance Companies—that's what ALLSTATE offers you! Simplified, direct methods of doing business together with the careful selection of risks, have made these timely savings possible.

You need not pay the full premium when you order your policy. ALLSTATE offers a convenient and exclusive easy payment plan. No interest or service charge.

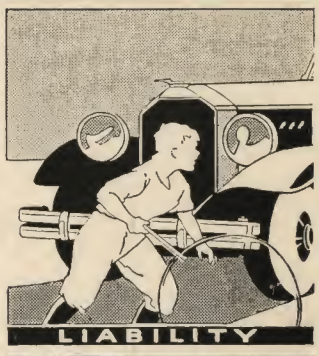
There is no reason why every automobile owner should not be fully insured—with ALLSTATE making it so easy to obtain.

Security

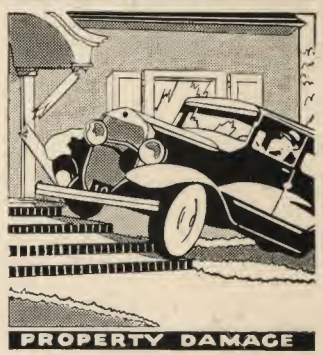
No automobile owner can afford the extravagant risk of being unprotected—Not merely against fire and theft, but against those far more costly claims for Bodily Injury or Property Damage.

A single liability claim might sweep away all we have. And the future, too, may be mortgaged unless we have reliable automobile insurance to meet just claims and fight unjust demands.

ALLSTATE Automobile Insurance with its many exclusive features, including outstanding claim adjusting service, is the last word in protection for the automobile owner.



LIABILITY



PROPERTY DAMAGE

FIRE

Learn for yourself just what our low rates are for *your car*. You will realize that a single accident might cost you more than your ALLSTATE premium for ten years.
